Stop music.

FADE IN:

INT - MILITARY BASE - NIGHT

There are two guards standing in front of a room.

Inside the room there are two guys sitting at a table. One is an older guy who is smoking a cigarette. He is wearing a BDU outfit. (BRYAN) The other has a bottle of Jack Daniels in his hand. He is wearing a t-shirt and BDU pants. (TONY)

TONY

You know what?

Bryan looks over at Tony. He puts his cigarette out.

BRYAN

What's up?

TONY

I can't belive that we are both two different races. I wonder how long ago all of it took place.

BRYAN

Let me explain this as easily as possible.

The screen fades to black as we hear Byran talk.

FADE IN:

EXT - SPACE

Two alien ships are starting to race away from their planets.

BRYAN (V.O.)

As two ships race away from their destroyed planet, they collide with each other and head for the planet earth.

The ships fall into the earth's atmosphere and land in the water 2 miles from land.

BRYAN (V.O.)

Once on the new planet they found out that there was other creatures here. These creatures are what we called dinosaurs. Well... The hostile aliens that destroyed their planets followed them to earth.

Two more ships are coming down from the sky.

They start to glow.

BRYAN (V.O.)

So the good aliens ran into the water and dove underneath. The two ships shot out a nuclear ray which destroyed the earth. If anything was not in the water then it died.

Trees fall over and dinosaurs fall to the ground dead.

TONY (V.O)

So that's what killed the dinosaurs? What about the scientific research about Apes being people?

BRYAN (V.O.)

Like I said, Anything under water didn't make it. But when the aliens came above the water they decided to make shelter. With their technology anything was possible. As far as apes they were just pets brought down by other aliens.

We see the aliens making shelters.

TONY (V.O)

That makes sense why there are so many different nationalities. As well as different people who can live in certain climates. Like the people who can swim in -40 degree water. We see older people getting into ice water to go swimming.

BRYAN (V.O)

Those people came from Pluto.

TONY (V.O.)

So depending on where they came from determines where they live?

BRYAN (V.O.)

Now your getting the idea. We all lived together for a long time until we wanted different areas for our own cultures. After many set out, a lot of them became king's and queen's of the new found land. Those that wanted to be on their own stayed behind.

Show castles with Kings and Queens.

TONY (V.O.)

Why is it that all of America has no idea about aliens?

BRYAN (V.O.)

Most of their ancestors never told them about it. Remember when everything happened in Roswell in 1951?

Show footage of Roswell 1951. Aliens scattered about and a wrecked ship that is on fire.

TONY (V.O.)

Yeah, the government kept it all hush hush.

BRYAN (V.O.)

That's right. And even the President of the United States has no idea that Area 51 even exists. There's no entrance that can be seen it's all covered in sand.

TONY (V.O.)

How do you know so much?

BRYAN (V.O.)

I've been here for a long time. They will never let me out of here. Now at least you know the truth about Area 51 and who we really are. I have dealt with aliens for a long time.

FADE IN:

INT - MILITARY BASE - NIGHT

Tony sets down the bottle of Jack Daniels and gets up.

TONY

There's no way out of this is there?

BRYAN

No. Once you're here you don't go anywhere.

TONY

Tell me about it. Don't you miss your family?

BRYAN

Once you join you have no family. The secrets of life are told to you and then they keep you.

TONY

Who is the head alien?

BRYAN

He is a galaxian empire king. His name is GOD. He once ruled the earth and was the first one to arrive.

Tony walks towards the door.

BRYAN

Where are you going?

TONY

I want to talk to him.

BRYAN

It's impossible.

TONY

Why?

BRYAN

He is everywhere. See the people of earth need something to believe in. So instead of telling them the truth and getting them paranoid, They believe in him.

TONY

Are there any other secrets I should know about?

BRYAN

Nope. I think that's everything.

TONY

It's a little hard to believe in this stuff yet it all makes sense.

BRYAN

Just take a few deep breaths.

TONY

Wait a minute what about all of the stuff the bible talks about you know Noah and the ark?

BRYAN

It was a giant flood to take out the other hostile aliens. They didn't like water.

TONY

Why are you telling me this?

Bryan pulls out a cigarette and lights it.

BRYAN

The end of the world is near.

TONY

When?

BRYAN

In the year 2050.

TONY

So what happens to everyone?

BRYAN

Judgement.

Tony turns around with a look like he is going to cry.

TONY
Welcome to Area 51.
