

## Super Cash Treatment:

The story of Super Cash the Crime Buster takes place in Arch City, a city in a not too distant future where the planet is wrecked with wide-scale pollution and out-of-control, big spending government. It is known around the world for being an emblematic monument to money and consumerism and, on the surface, everything seems to be wonderful. With the glowing, city's horizon at

their backs, the Van Cash family sits on the shores of Independence Hill Lake, enjoying the fireworks

display for the annual celebration of Hero's Day. Billy admires his father, William, as he knows the he is

one of the heroes that this celebration is for. He vows to be like his father one day. It truly is a wonderful

night and this is one of Arch City's finest events.

Suddenly, the beautiful celebration is devastated by a ground-shaking explosion more powerful than any firework. Chaos rips through the crowd and dozens are injured by either the explosion or the

stampede of people trying to escape. William rushes his family to the nearest safe place he can find and,

being the hero he is, hurries to help his fellow citizens. A solemn silhouette stands on the horizon

watching the tragedy. Billy will not stand idly by and watch his father put his life on the line. He breaks

free from his mother's clutches and runs to William who is tending a citizen whose leg was just blown off

by the explosion.

William orders Billy to return to safety with his mother and heads to the fireworks launching pad to inspect a little further into this disaster. He immediately finds out that this was no accident.

The

silhouetted man is hunched over the platform, punching a code into the keypad of a missile launcher.

The man sees William and steps into the moonlight. He is the infamous Taxman, scourge and tormentor

of Arch City. William lunges at him, tackling him away from the missile. He has him fully restrained until

Taxman's Foot Soldiers blindside William, knocking him out and rescuing their leader. Taxman escapes

yet again.

Billy stays true to this train of thought throughout his childhood and into his teenage years, but William has to confess to him that everything in Arch City is only perfection on the surface. The entire

country's economy is on the verge of a collapse that would cause massive financial devastation.

He

drives home the fact, to Billy, that he must stay the course and become the hero that saves his country from ruin, with courage and honor through justice and peace. Billy assures his father that becoming a superhero is his destiny, it's in his blood. All the while, William knows that his country will need him again for a dangerous mission to the Republic of Oilton. It is a mission he is not sure he will survive. But, just as he's about to put Lisa's fears to rest, the phone rings. President John Boot is calling upon his services again. Billy and Lisa are saddened, but they know that William cannot refuse a call to serve his country. On his way to meet with the president, William entrusts a lifelong friend, Professor Willy Eyeball, with the task of training Billy to become a superhero if William does not return. President Boot is aware that William has been working on a very special invention that could potentially change the world. It is this exact invention that leads President Boot to send William on a super-secret mission to the pollution and crime-ridden area known as the Gulf of Oilton under the guise of arresting the perpetrators. By the cover of night, William parachutes onto the shores of Oilton Gulf. Even in the dark, he can see the failing oil wells and towers pouring out smoke and polluting the environment. The Republic of Oilton is the land of black gold. A gun battle ensues; William is being fired at by his own countrymen. He is instantly caught in a vicious trap that he soon finds out was set by the evil Taxman. Taxman vows to leave William imprisoned for the rest of his life if he does not hand over the Tube Filter to him. He calls his sister, Doris, begging her to take care of his family, knowing that there's no chance of returning home. Just then, Taxman, the evil villain, orders his men to put William under arrest for not paying his taxes. William is whisked away to the Prison of Oilton where he is aggressively interrogated by the Taxman to give up the patent on his world-changing invention. William refuses, claiming that it will Taxman that ends up behind bars because his son will rescue him. Ricky Cactus, Taxman's boss, arrives at the prison and takes part in the interrogation process. It is revealed that Ricky and his uncle, Mayor Bob Cactus, are funding the president's campaign. Ricky orders the president to return to the prison to

continue punishing William until he gives up the information they need. It is to William's surprise that he

finds out that President John Boot is also the Taxman!

Not long after, a presidential debate is underway between President Boot and Governor Joe Green. The Governor's proposal is the mass produce William's invention, the Tube Filter; a device that

produces pure gas through a filtration process and end of the world's pollution problems.

President

Boot takes a different approach: he claims that pollution is all a hoax and he makes wild promises like

free health care for everyone and offers to pay everyone ten thousand dollars each for their votes.

Governor Green is immediately arrested by the president's soldiers. The president is clearly out of

control with power and greed.

Years later, inside the Van Cash mansion, Lisa has received word that William was declared dead

by the American Government. Lisa faints in front of her son and he rushes her to the hospital.

As she's

taken into emergency care, Lisa has one last request of Billy: promise her that he will find William! She

and her son still have faith that he's alive. He stays by her bedside for days, praying for her to get better,

but eventually, she passes away and Billy is devastated.

Billy is leaving the cemetery when he's approached by his Aunt Doris. He knows he can count on

her in this difficult time. She tells him that now is the time to begin his training to become the superhero

that his father believed he could be. Billy declares that he has waiting for this moment and he's ready to

start his training immediately.

Billy is welcomed in to the Top Intelligence Academy by Professor Eyeball. His intense training passes by in a flash of strength, agility and weapon training. His belief and determination help succeed

to leave the academy as Super Cash... The Crime Buster! Professor Eyeball proudly presents Billy with his

new, favorite weapon, the Money Sack. Along with his Super Cash uniform, Billy is given a special key

that starts the Fast Cash motorcycle and Fast Cash mobile.

Soon after entering the world as a superhero, Billy is stopped by a Foot Soldier for a routine traffic violation, but really it is a test to see if this new superhero is everything he says he is.

Unfortunately, for the Foot Soldier, Billy makes quick work of them with a few, lightning fast punches

and speeds out of sight on the Fast Cash bike.

Later that night, he receives another visit from Doris, who is there to deliver to him her congratulations on excelling at the academy and to introduce Billy to her assistant, Joy Brown.

Billy is

instantly head over heels for the beautiful woman. She seems to feel the same way for him.

Doris also delivers William's last will and a letter to Billy. The letter explains to Billy that Ricky Cactus and Taxman

are behind all the corruption or responsible for the collapsing economy because they intent on taking

over Advanced Power Enterprise; the company of which Billy now own 90%. Super Cash vows to take

down Ricky and Taxman. Super Cash gets in the Fast Cash Mobile for the first time and speeds out of

sight, toward the Republic of Oilton. Along the way, Super Cash pulls into a crowd of protestors who are

marching to bring an end to the political corruption. They chant about how Super Cash is going to put

them in jail. He hands out bundles of bills from his money sack to the crowd.

He is officially Super Cash and his time to shine is now. Halfway there, he gets in a heated fire-fight with a small army of Robotic Soldiers, but he soon discovers that his powers and new weapons

make quick work of such an easy foe. The power he has within him is truly exhilarating. They instantly

open fire on him with their lasers. Super Cash has no choice but the fight back and turn those robots

into scrap metal. In the nick of time, he also rescues a family from a burning car that was caught in the

crossfire. After bringing them to safety, he continues across the bridge leading into Oilton.

He enters Oilton, only to be targeted by the Taxman, driving full speed at him. A head collision seems unavoidable. Their vehicles collide and the ground literally shakes. Taxman exits his car, threatening to end Super Cash's miserable existence, but Super Cash is ready for the fight! This is the

moment for which Billy had trained. Taxman attacks Super Cash with a flamethrower and his hat of

blades. Super Cash barely dodges the assault and counterstrikes with a swing of his Money Sack,

knocking Taxman out cold! Super Cash unmask Taxman in front of the public eye to reveal President

John Boot and he's put under arrest for defrauding the entire nation. Taxman vows that he'll have his

freedom back soon enough.

Super Cash drives Taxman to the Prison Oilton to spend the rest of his days, but he doesn't know

that Taxman has set an elaborate trap for him! Ricky Cactus captures Super Cash, imprisoning him and

attempting to kill him by electrocution. Super Cash struggles to remove his Super Badge, reflecting the

electricity and freeing himself. He puts Ricky and company to sleep before they have a chance to fight

back. Super Cash uses his Power Cash Gun to blast open the door to William's cell to find his father is in

very bad health. The promise he made to his mother is almost fulfilled. Helping his father and Governor

Green escape, Super Cash takes Taxman and Ricky into custody. Super Cash reveals his identity to

William. It is a loving and proud reunion of father and son. Governor Green is honored to be taking over

the reins of the country to lead it into a new age of prosperity. Super Cash urges his father not to give up

the fight for his life as William is rushed to the hospital. Ricky and Taxman vow to get revenge on Super

Cash!

Taxman and Ricky are ushered into Federal Prison to await their trial. Meanwhile, Uncle Bob Cactus has the ear of Judge Bubba, greasing the wheels of justice with a two billion dollar check made

out to the judge! The judge makes a spectacle out of the trial. He doesn't listen to the prosecutor's case

and sets their bail at only one dollar!

President Green honors Super Cash with his own \$200 bill and a National Defense parade. The entire population of Arch City celebrates Super Cash. After the parade, Super Cash takes Joy Brown out

for some delicious hamburgers and some alone time. To say goodbye, they finally kiss and begin a true,

everlasting love. While Super Cash is distracted, Uncle Bob set up an efficient trap to catch Doris and Joy to extort

the two billion dollars out of them to cover the check he wrote to the judge. All the while, Billy is visiting

his father in the hospital, but things aren't looking so good for William.

Days later, Billy is at home, happy with himself and the growing, positive state of the country when he gets the terrible news that his father has passed away. He vows again to continue William's

legacy until the day he dies. Super Cash is still unaware that Doris and Joy have been kidnapped.

That night, he sees on the news that Ricky Cactus and John Boot have been released from prison

on bail of one dollar! He get angrier when he watches Bob, Ricky and John reunite outside the

prison

like a happy family. Little does Super Cash know that Taxman and Ricky already hatched a plan to bribe

Judge Bubba for their freedom.

Super Cash: The Crime Buster

Characters:

Billy Van Cash: The son of William and Lisa Van Cash and a big dreamer. He recognizes the financial and environmental issues his fellow countrymen are suffering from at the hands of a wicked villain named

Taxman. He makes a vow to grow up and become the super hero that he feels his country deserves.

William Van Cash: Billy's father and a loyal servant to his country. He has a long history of fighting for his

country in top secret missions. He is Billy's biggest hero and the inspiration to become Super Cash. He is

an avid inventor and believes he has complete the ultimate task in creating a device that will cut energy

reliance and help clean up air pollution.

Lisa Van Cash: Billy's worrisome mother who loves her son almost to fault but has unwavering faith in

her husband and her son's determination.

John Boot: A greedy president only concerned with siphoning as much tax money from his citizens as

possible. His secret identity is Taxman.

Theodore Pearling: the great senator and role model and mentor of future president John Boot.

Doris Van Cash: William's sister and total supporter of the Van Cash family name. She is the one who

eventually takes Billy to the Top Intelligence Academy to begin his training.

Taxman: An evil man who strives to collect as many taxes as he can from everyone and believes he is

ultimately above the law. He is constantly protected by a troop of elite soldiers. He runs the area known

as the Gulf of Oilton where pollution abounds and black gold flows like rivers. He is after

William's

invention.

Ricky Cactus: He is the supreme boss. He even has authority over President Boot and will stop at nothing

to get re-elected.

Mayor Bob Cactus: Ricky's uncle and contributor to President Boot's campaign.

Joe Green: An honest politician of the people who believes that William's invention can truly save the

planet if built on a large scale and set up around the world.

Willy Eyeball: the head professor at the Top Intelligence Academy and Billy's future mentor for his

training to become a super hero.

Joy Brown: Doris' assistant and the instant crush of Billy's.

Judge Bubba: a corrupt judge who will let anyone off the hook for the right amount of cash.
