EXT. DESERT - DAY

Sean is in the middle of the desert. He looks at all four directions. It's endless desert. He then sees a fresh cut red rose on the sand with sparkling dew. Sean picks it up.

Then out of no where Megan appears (through the thin air) and approaches Sean.

MEGAN

I knew you would be here.

She gets closer and kisses him.

CU - SEAN AND MEGAN

They kiss more intimately.

FADE TO: BLACK

## **Romance And M Theory**

FADE IN:

INT. SHERATON HOTEL - RECEPTION - NIGHT

A party is in progress. We see the stars, producers, models and guests drinking Champagnes, having refreshments, mingling and dancing on the dance floor. Megan and Leonardo can be seen talking. In the other end, Sean and JAKE (32) converse. We don't hear what they are saying due to the music on the soundtrack. Sean looks at Megan. Megan catches his eyes and gives him a soft beautiful smile. Sean returns her smile.

Two girls RITA (26) and PARIS (27) walk up to Sean and Jake. They all kiss on the cheeks, greeting. Paris and Rita start mingling with Sean and Jake. Sean looks at Megan again. She sees him and gives him a wink. Sean smiles at her softly. He turns his attention back to Jake, Paris and Rita.

EXT. SHERATON HOTEL - TERRACE - NIGHT

Sparkling stars. There must be millions of visible stars. A scenic view of Los Angeles City in the night. Megan stands next to the frame, sipping wine while looking at the city of Los Angeles and stars in the sky. Then Sean comes to the terrace and walks toward Megan. Megan looks at him...

SEAN

hi

MEGAN

hi

Sean stands next to her, looking at the stars in the sky. There is a silent moment.

Sean then:

SEAN

It's a beautiful night.

MEGAN

I've never seen these many stars  
in the skies.

SEAN

It is odd. Astro Scientists are  
saying the universe is expanding  
faster than the speed of light. In  
the future, they will be no  
visible stars in the skies.

MEGAN

They say a lot, don't say...?  
Astro scientists.

SEAN

You have no idea.

There is a silent moment.

He then:

SEAN

You want to go to a bar.

MEGAN

Sure

They turn around and walk toward the exit. On the soundtrack, music  
plays.

EXT/INT. SEAN'S MERCEDES CONVERTIBLE (MOVING) - NIGHT

2013 Mercedes e350 convertible: Sean is behind the wheel. Megan sits  
in the passenger seat. They drive in the street of Los Angeles. We  
then take it with overhead shot.

MONTAGE

A quick take of the city of Los Angeles in the night: Downtown Los  
Angeles, the Hollywood Sign, Beverly Hills, Mulholland Drive,  
Hollywood Boulevard, the buildings on the coastline of the pacific  
ocean and others.

INT. LILLIAN BAR AND CABARET - NIGHT

Sean and Megan sit at the table with glasses of scotches. on the

stage, a girl named RACHEL sings "I put spell on you" with six males and six females performers featuring Johnny Band.

MEGAN

...Is it really true that you wrote the script in two weeks after you saw me at the premiere of "Vitamin C" for two second... as I entered in to the limo and left?

SEAN

Kind of

MEGAN

What do you mean kind of?

SEAN

I have always liked you. It was a matter of time I wrote something that would get your attention... and got closer to you.

She smiles in beauty.

MEGAN

It was the most beautiful screenplay I had ever read. I told my agent I wanted to purchase it whatever the price is and produced it myself.

SEAN

I'm flattered.

MEGAN

You should have played the leading character.

SEAN

I should have.

There is a silent moment. They gaze at each other intimately.

MEGAN

Anyway, do you always come here?

SEAN

Not always. I come once in a

while. I know the girl who owns this place. She is not here today. But if you see her, you will probably recognize her. She was a famous actress.

MEGAN

A famous actress sounds like movie stars in the golden era of Hollywood... in the 40's.

SEAN

It does. She started out so young and fell out of the spotlight before she turned 30. You know? Drugs and alcohol the only things Hollywood can not turn down.

MEGAN

I know what you are talking about. I told myself: "I will never touch drug. I only drink occasionally." I have an Aunt who can not do a single take without a line of cocaine. She is what you call a drug addict.

SEAN

But this girl cleaned up her act and opened this place. She still entertains, sings and dances. She also works on low budget movies.

MEGAN

What is her name?

SEAN

Lillian Carter.

MEGAN

I know who you are talking about. She was in A Kiss For Six Bullets with Luke Jones.

SEAN

That is her.

MEGAN

Everybody knows her. I remember

watching her in ET every day...  
You know? accused of drinking and  
driving, drugs, appearing in  
courtroom and fighting with  
directors in the set.

SEAN

Everybody has his or her own  
demons. It takes time to make  
peace with yourself. I think she  
has made peace with herself. She  
is doing wonderful. We might even  
see her in big screen soon. The  
last time I talked to her, She  
told me Actor and director Matt  
Rice wanted her to play Elvira  
Hancock in the remake of Scarface.

MEGAN

It is good to see people hitting  
bottom, and get up and do what  
they are born to do.

SEAN

That is life. Sometime it throws  
you curve balls. You keep faulting  
but you remain on the plat. If you  
are lucky, it throws you the pitch  
that you are looking for. You hit  
it out of the ball park. You'll  
become a legend.

MEGAN

Or it throws you a fast ball. You  
struck out. That would be the end  
of it.

SEAN

Or the ball hits you on the leg.  
you fall. You pick up yourself and  
walk to the first base.

MEGAN

But life is in the first base is  
not the same thing as Home run.

SEAN

It's not even close. So you steal  
the second base.

MEGAN

You are halfway.

SEAN

But still, you are not home.

MEGAN

You are getting there.

SEAN

You are getting there. You trust the angels at the plat. But you don't trust the devil pitching the ball. You run and steal the 3<sup>rd</sup> base.

MEGAN

Now you are closer than you've ever dreamed of.

SEAN

Closer than I've ever dream of. I have stolen two bases.

MEGAN

The cops have \$6,000,000 reward for anyone who catches you... which is what I paid for your last screenplay.

SEAN

At list I know my work is worth that much any given day. But still, money is not everything. I've heard story about Alexander the Great how he got the better of much of what was then civilized world. Mozart how he used to compose music in his dream. Michelangelo and Leonardo Da Vinch how they define Art. Albert Einstein And Niels Bohr how they made a ground breaking contributions to understanding of Gravity, atomic structure and quantum mechanics and shaped up concept for multiverse and extra dimensions of space...

MEGAN

And if you are stranded in the third base, you might as well...

SEAN

I might as well hire a person who says he killed me, fake my death and move to Shanghai. That way I will change my name and live my life with Rita Hayworth look alike in confidence.

MEGAN

But that is not what you have in your mind.

SEAN

That is not what I have in my mind. I have poured out my soul and heart...

MEGAN

Plus the pitch you thought it hit your on the leg. You actually hit it hard. It missed a home run by few inches.

SEAN

It hits the wall and bounce back.

MEGAN

You see you dream in front of you.

SEAN

So close... what would I do?

MEGAN

What would you do?

There is a silent moment. They gaze at each others eyes intimately.

He then:

SEAN

I'll leave the answer to your eyes. Your irises are alone prophecy. They predict destiny. And when your pupils dilate, they

take you to another dimension...  
at the very creation of pneuma.

MEGAN

What is Pneuma?

SEAN

Something that exists before the  
creation of time and space...  
before the formation of stars and  
the initiation of the universes.  
The Very Breath of life... The  
origin of soul.

Megan smiles in beauty. On the Stage, Rachel begins to sing  
Madonna's Take a bow. Sean gives Megan his hand to dance. She takes  
his hand. They come to the dance floor and dance.

Then the dancers come out the backstage and begin to dance with Sean  
and Megan. It seems a well script act. But it is improvise. The  
dancers let Sean and Megan to be the center of the attention. It is  
extemporaneous. We stay with them for a bit.

EXT. BEACH - NIGHT

Sean and Megan take a walk talking...

MEGAN

...I always want to do some thing  
like Cabaret but I don't have the  
heart to sing and dance in front  
of people. That wasn't me. I am  
only comfortable in front of a  
camera.

SEAN

(humorously)

I don't believe that was you  
either. It was Some Cat On A Tin  
Hot Roof.

MEGAN

What is Cat On A Tin Hot Roof?

SEAN

Cat on a Tin Hot Roof is a play by  
Tennessee Williams about an ex-  
football player, who resists the  
affections of his wife, Maggie

"Cat" and his father who is dying of Cancer, and spends his day drinking out of guilt and misunderstanding before he reconcile with them.

MEGAN

I want to do stage play. But I am self conscious.

SEAN

It's not that hard. I did stage plays in high school. Just imagine the people, the stage and all the voices in your head don't exist... as if they disappear the face of the earth. Only you and the play... Then transcend yourself some other place... like when I did Hamlet in high school... as if I were in Denmark, looking at Slotsholmen, walking with Ophelia in Tivoli Gardens and confessing every sin I had ever committed in Frederik's Church.

MEGAN

You sound like you got the world on a string.

Sean smiles softly.

SEAN

(Humorously)

I do, don't I...?

MEGAN

I think I might do stage play of Shakespeare's A Midsummer Night's Dream. I played Hermia in 10 grade.

SEAN

Really? I play Lysander in 12 grade.

MEGAN

A PG-13 version of A Midsummer Night's Dream, written by my best

friend Jennifer with stander  
American English without thee,  
thy... and thou art.

SEAN

I love old English. I can't  
imagine Midsummer Night's Dream or  
any other Shakespeare play without  
them.

MEGAN

Actually, it was a different  
story. In A Midsummer Night's  
Dream, if you remember Hermia  
loves Lysander, but her father  
wants her to marry Demetrius. If  
she refuses she will be sentence  
to death or spend the rest of her  
life in a nunnery by Athenian law.

SEAN

Right

MEGAN (CONT'D)

...But This is twenty one century  
North America, if Hermia refuses  
to marry Demetrius, Not only she  
loses her father Inheritance. But  
also if her Brother finds out she  
is in love with Lysander, a  
Mexican immigrate, he will kill  
both of them.

SEAN

That is interesting turn of plot.

MEGAN

Hermia and Lysander run away and  
come to Helena's Drug Lord  
father's house in Mexico. Hermia  
meets Helena who is Lysander  
childhood lover. Helena and Hermia  
become best friends despite the  
fact there was history between  
Lysander and Helena...

SEAN

I don't mean to interrupt you. But  
This is in your best friend

play... not the actual  
Shakespeare's A Midsummer Night's  
Dream?

MEGAN

It's my best friend play. A  
completely different from  
Shakespeare's A Midsummer Night's  
Dream.

SEAN

(Softly)

Okay. Continue.

MEGAN (CONT'D)

In the meantime, Demetrius comes  
to Mexico looking for Hermia and  
find her at Helena's drug lord  
father's house. That is when  
Helena falls in love with  
Demetrius at sight. The Maiden,  
who serves at Helena's drug lord  
father's house where all of them  
are staying, sees how things play  
out. She puts love potion in  
Demetrius's drink.

SEAN

I see where the story is heading.

MEGAN (CONT'D)

Yet, Lysander, by accident, drinks  
the potion and falls in love with  
Helena again. The Maiden knows she  
has made a mistake. But this time,  
she makes sure that she gives the  
potion to Demetrius. Both  
Demetrius and Lysander fall in  
love with Helena. In the end.  
Lysander's spell is broken. He  
marries Hermia in a church.  
Demetrius, who is still under the  
influence of the potion, marries  
Helena in the same church. The  
End.

SEAN

That is a very interesting story.

MEGAN

The whole production was meant to be a joke. I mean you would have laughed your heart out if you had seen it. We were sniffing milk powder that was supposed to be cocaine, and making out on the stage while pretending to be under the influence of the portion like The Last Tango in Paris. Students in school were talking about it the whole year.

Sean smiles softly.

SEAN

I can see you playing Hermia on a real stage production of A Midsummer Night's Dream. You are natural.

MEGAN

What is natural?

SEAN

You don't even have to act. Just your present defies the stage and makes the play an affair that sets you apart from the rest... like Vivian Leigh and Judi Dench.

MEGAN

Thanks for the complement. But I doubt it if I am a stage person. I'll stick with movies for a while.

SEAN

(Humorously)

Is that your story..? You're sticking to it?

MEGAN

(Playing along)

That is my story. And I am sticking to it

SEAN

You would have been mesmerizing.

Just think about it: Your name on Broadway's marquee in New York City; A Midsummer Night's Dream featuring Megan Ryder... written by William Shakespeare.

She smiles in beauty.

MEGAN

That sounds tempting. But You don't get second chance. If you forget a line, there won't be a director to say "Cut."

SEAN

It doesn't matter. You have delivered some of the greatest dialogues in history of cinema. It will come to you naturally.

MEGAN

Maybe... I'll think about it in the future.

SEAN

Besides if that doesn't work out, You are as good as Tom Cruise with guns and knives. You can make great action movies.

MEGAN

It's wired. Talking about Tom Cruise, I thought about joining Scientology. But you know how Hollywood loves to label. They'll probably put my picture on the cover of tabloids next to him, saying: "Another Freak joins Scientology."

Sean smiles softly.

SEAN

I am not into religion. But if Scientology is your conviction, nothing should stop you from following your belief.

MEGAN

It's not really my belief. I thought I could find some peace of mind. I always think about the reality of the universe, how it started... where life came from.... Where I go after I die... You know? reincarnation... how the soul can return to earth in another body... conscious and a divine creator... basically the truth.

SEAN

I've stopped searching for the truth. To be honest, The first time I saw your eyes, I knew why I was put in this world. They shine the light of truth.

They stand lips to lip...

SEAN (CONT'D)

...And if Noses are for smelling Roses. Eyes are for seeing the stars. Let lips be only for kissing your lips... and the marriage of true minds confess endearment, smooch, caress, and osculation; to have and to hold you in sickness and in health and to love you all the days of my life.

MEGAN

Is it considered a sin to fall in love with someone whom you see your heart beating on their lips.

SEAN

No, it is not.

MEGAN

(Softly down by his lips)  
So Shut up and kiss me like I am meant to be kissed.

Sean kisses her like she is meant to be kissed. They kiss passionately. She then slips her lips.

MEGAN  
(seductively down by his lips)  
Just Make love to me.

They kiss French. Sean picks her up, carries her and takes her to his beach house as they continue to kiss.

INT. SEAN'S BEACH HOUSE - BEDROOM - NIGHT

Megan and Sean make love. It is sensual, steamy, seductive, and passionate. We stay with them with serious cuts.

INT. SEAN'S BEACH HOUSE - LIVING ROOM - NIGHT

Sean and Megan are in the bathtub that is placed in the middle of the living room with hundreds of Candlelight. Megan rests on Sean's chest with closed eyes. Sean is behind reciting poetry Christopher Marlowe's "Who Ever Loved" from memory.

SEAN  
(Softly by her neck)  
It lies not in our power to love or  
hate,  
For will in us is overruled by  
fate.  
When two are stripped, long ere the  
course begin,  
We wish that one should love, the  
other win;

And one especially do we affect  
Of two gold ingots, like in each  
respect:  
The reason no man knows; let it  
suffice  
What we behold is censured by our  
eyes.  
Where both deliberate, the love is  
slight:  
Who ever loved, that loved not at  
first sight?

He kisses her on the shoulder.

EMILY  
(with closed eyes)  
I am confused?

SEAN

Why are you confused?

EMILY

(with closed eyes)

My future?

SEAN

What about your future?

Megan opens her eyes.

MEGAN

Last Night, I finish reading  
your new noble French Kiss while  
watching the Beauty and the Beast  
right before I went to bed. I had  
the weirdest dream ever...

SEAN

(Under his breath)

The weirdest dream ever?

He kisses her on the shoulder.

MEGAN (CONT'D)

...I was running in the forest  
while wolves chasing me...

Note: If it's convenient, we will see Megan's dream in animation.

MEGAN (CONT'D)

...I fell down. When the wolves  
were about to tear me apart. Out  
of nowhere came this beast and  
killed some of the wolves and  
chased away the rest. He then  
carried me to this medieval  
castle. In the castle, there was  
a handsome portrait of you. I  
assumed the beast must have been  
you. You nursed me. We made love.  
Then my ex-boyfriend Kevin and  
his friends storm in to the house  
with guns and took us away. They  
scourged you like Jesus Christ  
with chain and flagrums that have  
small pieces of bone and metal  
attached to a number of leather  
strands. They nailed you on the

cross and burned you alive. Kevin then flogged me till I passed out. Next, This mysterious woman collected your ashes, performed a magic ritual and scattered your ashes on a lake. The whole Lake vaporizes into steam and fog. You raised from the dead as a Phoenix. You flew in the sky, turned back to your true human form and stood in front of me: The most handsome man I had ever seen. We kissed and made love. Next Kevin and his friend took me. They bound me to a large stake like Joan of the ark and set it on fire. You came out of the thin air, turned into beast and killed Kevin and his friends. You walked through the flame, carried me out of the fire and saved me.

SEAN

That is fascinating... but a little bit graphic. I don't want anyone to hurt you. You know?

(Softly)

...They flogged you till you passed out. That is too much to take.

Sean kisses her on the shoulder.

MEGAN

It was only a dream

SEAN

I know...

Sean plants a baby kiss on her shoulder.

SEAN

(Humorously)

Regardless, It is one of the most riveting dreams that I have ever heard: The wolves chasing you. Me burning alive on the cross and resurrecting as Phoenix; making

love to you... then turning into  
beast... killing your ex and  
saving your life... It is not going  
to get better than that.

Megan smiles in beauty. Sean and Megan kiss.

EXT. AIRPLANE - DAY

Airplane flies in the air.

New York City: Sean and Megan, who is wearing a white Miniskirt,  
take a walk in Central Park, talking...

SEAN

I didn't know who you were. I saw  
"Lady Einsteina", your first  
movie, here in New York City and  
falls in Love with you at sight.

MEGAN

That was supposed to be Chick  
flick. But the director wanted to  
take the movie a different

direction and made my character the smartest fictional character in history of motion picture.

SEAN

I think I remember they cloned Einstein's brain and placed it in your skull... like the Bride of Frankenstein.

MEGAN

Something like that. Yet Do you know Albert Einstein space time curvature is the biggest blunder in the history of Physics?

SEAN

How is that?

MEGAN

Einstein theory explained gravity and Space time continuum: the earth moves around the sun, it is because it falls on space time curvature that is caused by the present of the sun. If you remove the sun, the earth will travel into the Void till another curvature grabs a hold of it. But what Einstein didn't know is all matter are governed by uncertainty principle. Even if you remove the sun; the earth might appear to be moving against gravitational curvature that was created by the sun. But, In the meantime, it will also continue to move in circle without the sun. The sun is holograph. It has no effect on earth. The earth is holograph. The universe itself is holograph. Thus everything in the universe is illusion.

SEAN

That is something.

MEGAN

Anyway, Do you believe in God?

SEAN

I don't know... once they thought the earth is the center of the universe. Nicolaus Copernicus and Galileo prove them wrong. Then Edward Hubble saw the galaxies are moving apart. They discovered the universe is created in a big bang. What's next... parallel universes Who created God?

MEGAN

Who created God?

SEAN

You seem you have the answer to everything. Why don't you tell me?

MEGAN

I don't know who created God but according to Christian Science, God is a supreme being conceived as the concept of perfection, omnipotent and ruler of the universe... worshiped and understood as Life, Truth, Love, Mind, Soul, Spirit and Principle."

Sean is impressed.

SEAN

(humorously)

That sounds like big bang Theory.

MEGAN

Big bang Theory is the tip of the iceberg. Yet What other than God can explain serious of inexplicable events that lead to the creation of stars in the universe?

SEAN

"to see a world in a grain of sand,  
And a heaven in a wild flower,  
Hold infinity in the palm of your hand,

And eternity in an hour."

She smiles in beauty.

MEGAN

(Playing along)

William Blake is God.

SEAN

(Playing along)

You mean he is some kind of superhero?

MEGAN

There is only one superhero; Superman.

SEAN

What about Batman and Spiderman... They are not superheroes?

MEGAN

Spider-Man has super strength and agility, the ability to cling to most surfaces, shoot spider-webs from his wrists. But he is human just like you and me. And Batman is Bruce Wayne, a billionaire playboy. As a child, he saw the murder of his parents, and swore revenge on criminals. He trained himself, put on a mask and began to fight crime. Batman does not possess any superpower.

SEAN

What about Wolverine? He is a superhero. He has blades in his hands and a healing power that allows him to recover from all wounds and diseases.

MEGAN

Wolverine is not a superhero like Superman. He is a mutant who possesses animal-keen senses. Superman will have him for breakfast.

Sean smiles softly.

SEAN

And Hulk?

MEGAN

Who said that gigantic, green monster who doesn't have the ability to control his rage is a Superhero?

SEAN

Hulk might be brutal. But he is brilliant.

MEGAN

Hulk is Dr. Bruce Banner who is accidentally exposed to the blast of a test detonation of a gamma bomb he invented. He transforms into an ugly giant green monster whenever he gets angry.

SEAN

Okay... What about the Green Lantern. He doesn't look that bad.

MEGAN

Green Lantern is just a boy who wears a power ring and a power lantern which gives him control over the world. The ring is supposed to be one of the most powerful weapons in the universe. But that doesn't qualify him as a superhero. His power is not natural like superman.

SEAN

Wonder Woman. She kicks ass as good as Superman. Her power is natural.

MEGAN

Wonder Woman is a warrior princess of the Amazons. She might be gifted with a wide range of superhuman powers and skill. She even fought the Axis military

forces and an assortment of villains like Cheetah, Ares, Circe, Genocide, The Circle and Hera. But Wonder Woman is not truly a superhero. She is a villain herself.

Sean smiles in wonder.

SEAN

Okay... how do you define Superhero?

MEGAN

Superhero must be born superhero like Superman. He is the first superhero. We might not have Spider-Man, Batman, and the others. All superheroes are derived from him.

SEAN

Actually that's not all true. The first superhero is Jesus. He turned water into wine. He gave sight to the Blinds. He raised a man from dead. He walked on water. He resurrected from dead and ascended to heaven. Many believe he is the incarnation of God.

MEGAN

Okay. You got me. I thought I was on a roll.

SEAN

(Humorously)

Don't worry. You'll always be on top of the world.

Megan smiles softly.

MEGAN

Anyway, Buddha said, "We are what we think. All that we are arises with our thoughts. With our thoughts we make the world."

SEAN

(Quoting Buddha)

"Master your words. Master your thoughts. Never allow your body to do harm. Follow these three roads with purity. And you will find yourself upon the one way, The way of wisdom."

MEGAN

Something like that. But I think negativity and doubt have always been creeping into our lives. If we don't keep them at bay, they will get the best of us.

SEAN

I hear you.

MEGAN

What's your favorite color?

SEAN

It's red. But it scares me.

MEGAN

Why does it scare you?

SEAN

I have a weakness for a girl who wears red. She can inherit my soul while I am still alive and breathing.

She smiles softly.

MEGAN

Tell me if you can have one superpower, what would it be?

SEAN

Maximilian, a character that I created when I was in high school. He has the power to teleport and change into air, water, fire, and sand... and can access all kinds of weapons from parallel dimensions. He also has the power to transform to anything he sees and touches...

They stand lips to lips.

SEAN (CONT'D)

(Softly down by her lips)

... But I will probably turn into  
wind, and breeze through your  
skin, and make love to your soul.

MEGAN

That is tempting.

They exchange juicy kisses...

SEAN

Or I'll just turn the electrolysis  
on your curvacious lips into red  
wine and quenched my trust form  
here to eternity.

She smiles in beauty. They kiss. A couple, who happens to be passing  
by, looks at Megan.

MEGAN

(Referring to her Mini Skirt)  
I wish I had the power to go back  
in time. I'll change this stupid  
miniskirt.

SEAN

Why? You look beautiful.

MEGAN

I look like a whore. People keep  
looking at my ass as if they want  
to fuck me.

SEAN

You will be fine.

They kiss French.

INT. NEW YORK WOMEN'S FASHION STORE - DAY

Megan comes out of the dressing room wearing a sexy Blue Versace  
gown and shows Sean the dress. Sean couldn't believe how beautiful  
she looks.

Cut To: Megan, wearing a Silver and black Christian Dior dress,

comes out of the dressing room and shows Sean the dress. Sean loves it.

Cut To: Megan comes out of the dressing room in a light purple Alexander McQueen gown and shows Sean the dress.

Cut To: Megan, wearing a gold Yves Saint Laurent gown, comes out of the dressing room and shows Sean the dress.

Cut To: Megan comes out of the dress room wearing a light purple Dolce & Gabbana gown.

Cut To: Megan comes out of the dressing room wearing a red Valentino gown. Sean tells her she looks breathtaking.

INT. HOTEL AND RESTAURANT - NIGHT

It's a Five-Star restaurant. Sean and Megan, who is wearing a bewitching Red Marc Jacobs gown, sit at the table with glasses of wine. On the stage, Betty Lewis sings "Let's stay together".

MEGAN

...It's the drifting away from those we are not meant to be with that destroys relationship, not the Cheating, Lying or a Lack of communication.

SEAN

(Under his breath)

I couldn't agree more.

MEGAN

Yet I craves Freedom more than anything. Freedom is what life is all about. If you don't fight for it, it'll be taken away from you. And Living without freedom is death. You only breath for showing off. I guess, in contrary, that is what love is all about. To be a slave.

SEAN

Freedom and Love are two sides of the same coin. You can not have one without the other.

MEGAN

Love hurts. Our Heart doesn't really understand pain. It only tries to reason with the ache that is inflected by Cupid's arrow.

SEAN

You can take a comfort. You are the most beautiful girl in the world. Your heart heals faster than French kiss.

She smiles in beauty.

MEGAN

That's what happens when you fall for Wild Orchids. They say things that grow beneath the winter snow. When they break your heart, you can't forgive them.

SEAN

Sure... but who doesn't have a heart that is sensitive to the slightest touch of insanity..?

MEGAN

(Humorously)

I'll tell you a secret that's worth knowing: The heart is the most overrated organ in your body.

SEAN

Nevertheless, It is the only organ in your body that can stand the test of time.

MEGAN

How sure are you?

SEAN

I bet my life on it.

MEGAN

We will see about that.

Sean smiles charismatically. On the stage, Betty Lewis begins to sing Stevie Wonder's "Superstition". Sean gives her his hand to dance. She takes his hand. They come to the dance floor and begin to dance slow.

CU - SEAN AND MEGAN

Dancing and talking between baby kisses...

MEGAN

Sometime you have to hide your ambition from your subconscious and get a grasp of reality.

SEAN

Reality is a gorgeous dream that we haven't bothered to wake up.

MEGAN

It is true. If you can only make peace with yourself, there will be no suffering.

SEAN

You just have to allow a little bit chaos in your soul and make the most of your time on earth. You are the most beautiful woman ever.

She smiles in beauty. They kiss French.

EXT/INT. HILTON HOTEL - SEAN AND MEGAN'S ROOM - NIGHT

Sean and Megan make love. On the soundtrack, Stevie Wonder's "Superstition" plays. We Pan To the glass doors and see the city of New York at night. We return back to Sean and Megan as they continue to make love with Superstition with creative camera works.

MONTAGE

NEW YORK CITY: a quick chaotic take of New York City: Midtown Manhattan, the Central Park, Statue of Liberty, the Brooklyn Bridge, the United Nations Headquarters, Times Square, the Unisphere in Queens and many more.

INT. GALLERY - MARY-LOUISE ART SHOW - DAY

We see all kinds of artistic, mystical and erotic paintings in display. It's Sean's mother (MARY-LOUISE) art show. She can be seen talking to a man named JOHN (her boyfriend) and her art dealer SARAH DIAZ. People look at the paintings, sipping champagnes. Then at the entrance, Sean and Megan, who is wearing a beautiful white Versace gown, and Sean walk in.

Mary-Louise looks at them. She excuses John and walks up to Sean.  
Sean looks at his mother as she approaches him.

MARY-LOUISE

Sean

SEAN

Hi - Mom

They hug and kiss on the cheeks.

MARY-LOUISE

How are you?

SEAN

I'm fine.

MARY-LOUISE

Why did you stop calling?

SEAN

I've been busy lately... You  
Know...?

MARY-LOUISE

How hard is it to take two or  
three minutes, press the buttons  
on your cell phone, and say, "I'm  
doing fine. You should not worry to  
death."?

SEAN

(Under his breath)

It's not hard at all.

Sean kisses his mother on the cheek... and looks at Megan...

SEAN (CONT'D)

Mom... This is Megan...

(To Megan)

My mother Mary-Louise

MARY-LOUISE

Merlyn

Merlyn gives Megan her hand to shake. Megan takes Merlyn's hand,  
greeting, and they kiss on the cheeks.

MEGAN

Nice to meet you

MERLYN

Likewise

(To Sean)

So what brought you to New York City?

SEAN

Vacationing

MERLYN

Where are you guys staying?

SEAN

At Hilton hotel

MERLYN

That's good... Why don't we sit and talk about how you're doing over dinner tonight? I have few important clients who want to buy all these paintings.

SEAN

Sure.

MERLYN

I'll see you guys around.

First she kisses Sean on the cheek. Then Merlyn and Megan kiss on the cheeks.

MERLYN

Enjoy the show.

Megan nods okay. Merlyn walks toward John. Our camera stays with Sean and Megan.

MEGAN

Is that really your mother?

SEAN

Yeah... Why did you ask?

MEGAN

She is beautiful.

Sean smiles charismatically. He cuddles and kisses Megan on the

lips.

SEAN

I'm thirsty. You want champagne?  
Let's go to the bar. They might  
have Cognac.

MEGAN

(Under her breath)

Okay

Sean and Megan walk toward the bar. On the soundtrack, music comes.

INT. ART SHOW - LATER

Sean and Megan look at the paintings while sipping Cognacs. Sean knows his mother is an amazing painter. But Megan is awestruck. She asks Sean how she paints them as they continue to look at one sensual and mystical painting after another.

INT. HOTEL AND RESTAURANT - NIGHT

Sean, Megan, Merlyn and John sit at the table, having salads, lobsters, stakes, chicken sandwiches, and glasses of wines. But they are not really eating. They barely touch the foods. As a matter fact, they all are done eating. They are talking philosophy. On the stage, Maya sings Billy Holiday's "I'll be seeing you."

MERLYN

...they are more stars in the  
universe than all the grains of  
sands in every beach in earth and  
countless planets orbit those  
stars just like our solar system.  
Maybe it's unwise to think earth  
is the only planet that supports  
life. And of all millions of  
species that live in earth,  
mankind is the only creatures that  
will inherit the kingdom of God.  
But how do we know other  
intelligent beings in far distance  
universes think the same. They are  
special. The way I see it... space  
and time have no beginning and no  
ending. The universe didn't start  
from a single point. It doesn't  
have a grand designer. And  
according to Hinduism, the people

are not the dreams of gods. The gods are the dreams of people.

JOHN

The question is not "What is the purpose of our life in this world?" Or "is it God or it's the law of Physics that designed the universe". The law of Physics, the purpose our life in this world and God are One Entity... like the father, the son, the Holy Spirit; Trinity. There is Absolute order. Yet, take this dirt..

John dips his ring finger into his wine and takes out a tiny grain of dirt from his wine.

JOHN (CONT'D)

...and make it disappear somehow. None of this exists; you, me... he she... the universe... everything will be void. That's how precise things have to be for us to be here. There is a divine order that guides the law of physics, existence and the purpose of our lives in this world. By definition, that's god.

MERLYN

I am not ruling out the existence of God or a divine creator. What I am saying is... they could be multiple universes that we don't know about.

JOHN

I think the level of our understanding of the multiple universes doesn't help us to answer those questions. It's like teaching calculus to a dog. But still, that doesn't mean we shouldn't challenge what the future holds.

(Looks at Sean)

What do you say, Sean? Where did all these come from...? Are we here by accident or there is a divine

creator... what is going to happen  
in the end? What is your take?

SEAN

I kind of agree with mom. They  
could be multiple universes out  
there. In the sense, we are living  
in a universe that we created. The  
gods are our dreams. In then  
again, there is infinite space.  
The universe, time, all the stars  
in the skies, this rarity... A  
Treasure that we call life.. all  
are created by the manifestation  
of our higher conscious before we  
ever got here. Is that Grand  
designer? Our existence itself is  
hallucination. Our soul was  
created before our flesh. The  
past, the present the future is  
our law of illusion.

He looks at Megan. She glows like the angels in heaven.

SEAN (CONT'D)

This glow, this fluorescence,  
this delight...  
"Pure phantom in enchanting  
light."  
yet risqué and seductive;  
Innocent and luscious...

She smiles in beauty.

SEAN (CONT'D)

This vibration...  
These dynamisms...  
It's one. Yet it's many;  
It's Covenant...  
Splendor beyond the tantalizing  
emptiness,  
The deepest mystery of all...  
It can't be explained in words.  
Heart and soul that are anointed  
with prophecy and fever...  
And tides that are so high;  
We can only feel our flesh and  
blood entering a moment  
So passionate and real

We can only breathe rapidly and  
then sigh.

They all are impressed by the respond.

MERLYN

That's impressive.

JOHN

"...tides that are so high. We can  
only feel our flesh and blood  
entering a moment so passionate  
and real we can only breathe  
rapidly and then sigh!" You can't  
beat that.

MERLYN

I knew he was genius. But I didn't  
know he was that deep.

JOHN

He is just showing off.

(To Megan)

What about you... What is your  
belief?

MEGAN

I shouldn't say anything. I am  
speechless. I can't match his  
splendor beyond tantalizing  
emptiness. You guys will think I'm  
illiterate.

MERLYN

We'll never think that.

JOHN

That's his opinion. You have  
yours. It is in your eyes. Tell us  
what the secret of universes is.

She says nothing...

MERLYN

Do you believe there is God?

MEGAN

I'd like to think there is god. It  
helps to unload some of the weight

from your brain. I have no answer  
for what is life all about. I have  
no control over my greatest need.  
I don't know where I go after I  
die. There are a lot of  
negativities. People kill each  
other in War. There is poverty.  
There are diseases. Our brains are  
vulnerable to all kinds of  
addictions.

(Looks at Mickey)

But I still believe love will  
conquer all.

Megan gives Sean a wink. Sean smiles softly. On the stage, Maya  
begins to sing Billie Holiday's "What a Little Moonlight Can Do."

SEAN

You guys don't mind if I dance  
with her?

Sean gives her his hand to dance. She takes his hand. They come to  
the dance floor, and begin to dance Slow.

CU - SEAN AND MEGAN

SEAN

Do you really believe Love will  
conquer all?

MEGAN

I don't care if Love conquer all  
or not. But I've never met anyone  
quiet like you.

Sean smiles charismatically.

SEAN

I think I've already lived this  
moment. It could be in my dream.  
Or it could be in a parallel  
universe. But I swear to god I  
remember this exact moment,  
dancing with you with Billie  
Holiday's "What a Little Moonlight  
Can Do."

She smiles in beauty. They kiss and continue to dance. We stay with  
them for a bit.

EXT. AIRPLANE - DAY

Airplane flies in the air.

MONTAGE:

Jerusalem: a quick take of the city of Jerusalem: the Old City and the Dome of the Rock; Jerusalem skyline viewed from Givat ha'Arba, Mamilla; a souq in the Old City; the Knesset; the Western Wall; the Tower of David and the Old City walls and others.

Sean and Megan take a walk in the street of old City; Megan and Sean visit the Church of the Holy Sepulchre in old city; They visit the Tower of David; They talk between baby kiss at the Jaffa Gate northwest of the Tower of David; Sitting on the steps at the Western Wall, Sean reads Megan(who is sitting between Sean's legs) the bible (Song Of Solomon). Sean must have said something Romantic. She says, 'let me see it.' Sean shows her. She reads it. She smiles in Beauty. They put the bible aside and kiss intimately; Sean and Megan take a walk in Mamilla Mall. Megan sees Marc Jacobs Boutique. She drags him into the shop.

Marc Jacobs Boutique: Megan comes out of the dressing room, wearing a sensual black Marc Jacobs gown and shows Sean the dress. Sean tells her she looks Marvelous.

Dissolve To: Megan comes out of the dressing room wearing a beautiful gold and white Marc Jacobs innovative gown. Sean looks at her as if his soul jumps out of his heart and stands in front of him. He tells her she looks beautiful.

Dissolve To: Megan comes out of the dressing room, wearing a seductive (translucent) purple Mark Jacobs's gown that shows her entire skin. Sean is speechless; the sexiest thing he's ever seen.

Dissolve to: She comes out of the dressing room, wearing a simple and beautiful white Mark Jacobs gown. Sean thinks she looks an Angel. She walks up to him. They talk between baby kiss. They then kiss French.

EXT. ZION SQUARE - NIGHT

Sparkling star. Bright Moon. The city of Jerusalem. A private dinner: Sean and Megan sit at the table with glasses of wine in the middle of Zion Square. We see Israel Soldiers blocking the street at the four ends of the paths. No people are allowed to pass. It is one of the most romantic scenes in the cinema history. The food is made right in front of them by five highly skilled chiefs.

Two waitresses come to the table with Sean and Megan meals (Salmon and Shrimp with rice for Sean; lobsters and Shawarma for Megan; Bourekas for both). The waitresses put the meals in front of Sean and Megan and walk away. Megan and Sean begin to eat while conversing...

EXT. ZION SQUARE - LATER

Sean and Megan have dessert (a Chockalott and Vanilla ice cream cake with Cheery, strawberries, peaches and Almndo nuts). Sean feeds her with his spoon. Megan eats. He feeds her again. She eats again. He tries to feed her for the third time. She tells him she is full. Sean says Last one. Last one, she gets up, comes around the table, sits on his laps and eats from his spoon. They talk between baby kisses. They then kiss French.

EXT. CITY OF JERUSALEM - NIGHT

Sean and Megan take a walk in the beautiful part of Jerusalem. Sean is in the middle of telling her story.

SEAN

...There are five dimensions.

MEGAN

You said, "First is Mark Antonio."

SEAN

Yeah. But it starts with Michael. He is a writer. He lives in all five dimensions... going back and forth. One, He is Mark Antonio in 33 BC. He is in love with Cleopatra. They fall in love at first sight. The relationship between Mark and Cleopatra puts Egypt in power. But the love affair insults the Romans who are cautious of the growing powers of the Egyptians. In spite of all, Anthony and Cleopatra get married. Fighting a battle against Romans, Antony gets false news of Cleopatra's death. Devastated, he takes out his sword and kills himself. When Cleopatra hears about Antony's death, she kills herself, too. But Michael will

change all that.

Note: if it's convenient, we will see Sean and Megan in the story (back and fourth).

MEGAN

Okay... what is second?

SEAN

Second, he is Romeo in the medieval Verona. He and Juliet fall in love. They are secretly married. Sadly, Juliet's cousin Tybalt and Romeo's friend Mercutio have a sword-fight. Mercutio is fatally stabbed and dies. Romeo kills Tybalt in revenge. The Prince of Verona banished Romeo from the city. Juliet's father Capulet, who is not aware of Juliet's secret marriage, has arranged for Juliet to marry the prosperous Count Paris. Juliet, who is madly in love with Romeo, drinks a real poison and dies.

MEGAN

Wait... What do you mean she drinks a real poison and dies? I thought she took a potion that intended to make her appear dead.

SEAN

I know. This is a different story.

MEGAN

What is a different story?

SEAN

In the original Shakespeare's "Romeo and Juliet", Juliet drank a portion prepared by Friar Laurence that was supposed to wake her up after 42 hours. Friar Laurence fell to inform Romeo of the hoax in time. Romeo thought Juliet was dead. He went to her tomb, drank a poison and killed himself. Julia awake shortly and saw Romeo dead.

She took his dagger and stabbed herself. But this is a little bit different. Romeo finds out Julia has actually drunk a real poison and dies. He kisses her on the lips. Juliet returns back to life.

MEGAN

That is romantic.

SEAN

That is only second. Do you want to hear third, fourth and fifth? Or you are bored?

MEGAN

No. I want to hear all of them.

SEAN

Okay. Third is present time, he is Michael himself; a write: The center of the story. Michael is in love with Kate his girlfriend, who is dying with cancer like Ryan O'Neal and Aga Muhlach in "Love Story". This is where Michael goes back and forth without his will. In the mean time, Michael is in the middle of writing a story about parallel universes. Kate, who is diagnosed with Leukemia, tries to live a normal life without telling Michael. But Michael finds out and pretends he doesn't know about her illness and plays along. The fourth is in the year 3000 AD. Michael is a detective named John. He is in love with Emily who is an FBI agent. John and Emily are looking for a serial killer named Jack who can be multiple places at once.

MEGAN

What do you mean he can be multiple places at once?

SEAN

He is like a particle. In the

smallest scale, a particle can be more than one place at a time.

(Off her look)

It's quantum Theory.

MEGAN

I hear you.

SEAN

John and Emily try to solve how a person can be more than one place at a time. It'll be explained in quantum theory. Fifth, Michael is in the year 6,000 AD Future. He is A young scientist named Louis. Louis owns the first teleportation company that he designed. But the teleportation has caused people to have all kinds of genetic disorder disease. He is being sued for \$900 Billion damage. In the meantime, Louis falls in love with one of the patients named Iris, who is diagnosed with a rare Genetic disorder. Iris sees things upside down.

MEGAN

How can she see upside down?

SEAN

It's a Visual Defect that makes her see objects upside down. Let's say if she wants to read a book, she must hold the pages upside down.

(Off her look)

It's a genetic disorder.

MEGAN

That's a hell of genetic disorder.

Sean smiles softly.

SEAN

Tell me about it... But she'll manage to overcome the problem with the help of Louis. Louis, disguised as a regular man, visits

Iris and falls in love with her.  
Louis and Iris begin to date. And  
to impress Iris, Louis finishes  
his Time Machine that he has been  
working on...

MEGAN

You mean teleportation?

SEAN

Time Machine... apart from the  
teleportation. It is the first  
time machine ever built.  
Teleportation only allows you to  
transfer matter from one point to  
another without threading the  
physical space between them. But  
the time traveling machine can let  
you travel through time.

(Off her look)

Louis is genius.

MEGAN

I like Louis. He sounds cool.

SEAN

Yeah. He does... Louis travels to  
the future and finds cure for Iris  
Visual defect and for the others  
who have suffered genetic disorder  
from the teleportation. He then  
travels to the past and meets  
Michael.

MEGAN

Michael and Louis are the same  
persons?

SEAN

Yes, they are. Michael is central  
character. He is a writer. He  
jumps back and forth. Let's say I  
am Michael. I am walking with you  
at this particular moment. I take  
two or three steps. I then find  
myself in the past with Cleopatra.  
I spend one or two scenes with  
Cleopatra. I then find myself in  
the Fourth dimension with Emily,

solving murder mysteries. I jump one dimension after another dimension and live in all characters without my will or control. But in the end, all characters come together. Cleopatra, whom Michael thinks she is the queen of Egypt, is actually Kate herself. So does Juliet. So does Emily. So does Iris. And the moment, Michael realizes he loves Kate more than life itself. He stops jumping from one character to another. He kisses her lips. Light passes through every inch of her cell. She glows like Venus. The kiss cures her Cancer completely. Micheal and Kate get married and live happily ever after. The End.

MEGAN

It is a beautiful Story.

SEAN

It's okay. It's not like Gone with the wind.

They stand lips to lips...

MEGAN

(Down by his lips seductively)  
I want to option it. How much will it cost me?

SEAN

A kiss

They kiss French.

INT. MEGAN AND SEAN'S HOUSE (Jerusalem) - NIGHT

Sean and Megan make love in round candlelight. It's seductive, sensual, steamy and passionate. We stay with them with serious cuts.

INT. MEGAN AND SEAN'S HOUSE - LIVING ROOM - NIGHT

Sean and Megan sit in the bathtub that is placed in the middle of the living room with hundreds of candlelight and rose petals. Megan

rests on Sean's chest with closed eyes. Sean is behind reciting a poetry Federico Garcia Lorca's "Sonnet Of The Sweet Complaint" from memory.

SEAN

Never let me lose the marvel  
of your statue-like eyes, or the  
accent  
the solitary rose of your breath  
places on my cheek at night.

I am afraid of being, on this  
shore,  
a branchless trunk, and what I most  
regret  
is having no flower, pulp, or clay  
for the worm of my despair.

If you are my hidden treasure,  
if you are my cross, my dampened  
pain,  
if I am a dog, and you alone my  
master,

never let me lose what I have  
gained,  
and adorn the branches of your  
river  
with leaves of my estranged Autumn.

He kisses her on the shoulder.

MEGAN

(with closed eyes)

Sean

SEAN

(Under his breath)

What is it, Sweetheart?

MEGAN

(with closed eyes)

Did you hear about the plane that  
crashed in Tokyo?

SEAN

Yes, I did. They said something  
with engine. It went bad.

She opens her eyes.

MEGAN

The engine stopped functioning in the midair.

SEAN

Yeah... but nobody died. The pilot landed the plane safely.

MEGAN

There are days that planes, carrying hundreds of people, crash.

SEAN

It is true. But don't let that slow you down. People are more likely to get hit by lightning than to die in plane crashes.

MEGAN

I doubt it. I have never met anyone that is stricken by lightning.

SEAN

I watch this movie... Magnolia starring Tom Cruise. The guy who played "Quiz Kid" Donnie Smith hit by lightning.

MEGAN

Who... Tom Cruise.

SEAN

No. The other guy... William H. Macy.

MEGAN

Who is William H. Macy?

SEAN

He was in a couple of movies... Fargo... Boogie Night... the guy whose wife is having sex with guys while everybody is watching.

MEGAN

I think I know who you are talking about. He was in Jurassic Park III.

SEAN

Yeah. That is him. He got hit by lighting in magnolia.

MEGAN

That doesn't count. It is only a movie.

SEAN

Sometime, movies are based on real life. It doesn't usually happen. But there are days people get hit by lighting. It's the same thing. Planes crash every now and then. There is nothing we can do about it but to pray nobody dies.

MEGAN

There is something I can do about it. I'm thinking about starting an Airline company... like Virgin Atlantic Airways. But it's slightly different. You know? Private Jets or planes that carry up to 10 or 20 people... maybe less. Express. Travel fast. It's like a Taxi company. You know something that's futuristic, safe and reliable.

SEAN

That's nice.

MEGAN

I'm just going to buy all the private Jets that are in the market, paint them black and white like Checker Taxi and start the first Airway taxi in the world.

SEAN

That sounds great.

MEGAN

I mean they don't expect planes

carrying 200 people to crash every year. At least, you cut the causality in 1/100.

SEAN

(Under his breath)

That's smart.

They kiss French.

EXT. AIRPLANE - DAY

Airplane flies in the air.

MONTAGE: PARIS

We see the best part of Paris: the Eiffel Tower; Café Les Deux Magots in Saint-Germain-des-Prés; skyscrapers of La Défense; Notre Dame de Paris; The city of Paris at night; Panoramic view of the île Saint-Sean as the sun rises; The Place de la Concorde; Avenue des Champs-Élysées in the middle of the day; Seine River; Paris bridges and others.

Sean and Megan visits Louvre...

Sean and Megan visit Notre Dame Cathedral.

Sean and Megan spend quality time in Champs Elysées: shopping, strolling. They look at the monumental Arc de Triomphe...

EXT. PARIS RESTAURANT AND CAFE - DAY

Sean and Megan sit in the pop, having French croissant, muffins, a glass of coke and coffee. Yet they are not really eating. They are talking between kisses.

MEGAN

...Tell me what you like the most about me

SEAN

Your nose

He kisses her on the nose.

MEGAN

What else?

Baby kisses.

SEAN

Your eyes

MEGAN

What about my eyes?

SEAN

They exist in different  
dimensions... apart from your  
entire body.

They exchange juice kisses.

MEGAN

I don't believe you.

SEAN

To be honest; there are no words  
that can describe them. They are  
the ones that gave birth to the  
stars at the creation.

They exchange juice kisses.

MEGAN

what else do you like about me?

SEAN

Your lips.

They exchange juice kisses.

MEGAN

What about them?

SEAN

They are the deepest mystery of  
all. Crucifixion is only freedom.  
They are the best part of passion.

She smiles in beauty. They kiss French for long seconds as if their  
lips and tongues are made of from each other flesh and spirit. They  
then part their lips and lean back as if they just had sex...

MEGAN

This is Paris. You can smoke in  
the pop, can't you?

She just grabs her cigarette box, pulls out a cigarette, lights it and begins to smoke.

SEAN

I guess... But you should stop smoking cigarette. It's bad for your health.

MEGAN

(Joking)

I will quit and start doing cocaine. It is gravity, Sweetheart, that keeps me grounded.

She breathes the smoke at him with style. Sean smiles charismatically.

SEAN

Do you know how gravity really works?

MEGAN

How does it work?

SEAN

They are tiny strings called gravitons. They are closed loop. They ascend from the membrane and disappear into another dimension. Making gravity seems weak. Compare to nuclear and electromagnetic forces, they are snatch.

MEGAN

What is snatch?

SEAN

(Humorously)

Pussy

(Off her look)

No offense.

MEGAN

(Smiling)

None taken

SEAN (CONT'D)

But they're only deceiving us like

Delilah; they are as strong as Samson and Herclous... except they choose to teleport into parallel universes. That's why you don't see things are glued on the floor.

MEGAN

Really?

SEAN

I mean if Gravity were left alone, you can forget about your Megan Airways and billion dollar airline Taxi Company, they will pull everything that fly in the air. People will have to force their feet against gravitational constant and move one foot at time like robots.

MEGAN

Robots will eventually take over the world. If I were you, I wouldn't worry about it too much. We can blend in. There will be robots that smoke too.

SEAN

Trust me it would have been a different world where people have to adapt a certain kind of lifestyle. Like having to have unusual arms; So when you pick up things, your muscle are accommodated to carry the weight that is responsible for keeping the Earth in its orbits around the Sun.

MEGAN

(Playing along)

Anything that keeps the Earth in its orbits around the Sun sounds terrible.

SEAN

That's not the worst news. The air will be filled with these little gravitons. You might need two

lungs that turn those strings into  
oxygen. Smoking will be outlawed  
in the solar system.

Megan smiles softly. She drops her cigarette in her drink.

MEGAN

I get your point...

(A beat)

Do you want to have sex?

Out of nowhere she produces her underwear and throws it at him. Sean places the underwear in his pocket...

INT. PARIS RESTAURANT AND CAFE - BATHROOM - DAY

Sean and Megan enter kissing. They then begin to make love. We stay with them for a bit.

MONTAGE

Movie Theater: Sean and Megan sit in the middle of the Theater alone and watch Amelie starring Audrey Tautou. It is a private screening. Megan asks Sean a question. Sean says something. We can't hear what they are saying due to the movie. Megan gets up and sits on Sean's lap. They talk between baby kiss. They then kiss French.

Fashion show: Sean and Megan sit at the VIP (Front Row) and look at Supermodels walking up and down.

Valentino boutique: Megan, wearing a beautiful black and white strip Valentino gown, comes out of the dressing room, and shows Sean her dress. He could not believe how exotic she looks.

Dissolve to: Megan comes out of the dressing room wearing Yellow Valentino Gown and shows Sean the dress.

Dissolve to: Megan comes out of the dressing room wearing a red Valentino Gown and shows Sean the dress. Sean tells her she looks breathtaking. She comes up to him, throws her arms around his neck. They talk between baby kisses. They kiss French.

EXT. PARIS - DAY

Megan, wearing another red Valentino gown, and Sean take a walk at Eiffel Tower...

MEGAN

(Humorously)  
...Since you know everything to know  
about parallel universes, why  
don't you be a real physicist,  
write books and collect all the  
noble prizes?

Sean smiles charismatically.

SEAN  
You see... The problem with the  
physicists is they try to explain  
everything with formula. Space is  
infinite.

Out nowhere Sean produces a pill and lets it float in front of  
Megan.

MEGAN  
What is it...?

Sean says nothing.

MEGAN (CONT'D)  
Is it what I think it is?

Sean nods: Yes. Megan takes the pill. She places it on her mouth and  
swallow it. All kinds of hidden dimensions appears. Sean and Megan  
walk through the thin air and come to Kalmati

EXT. KALMATI - DAY

Kalmati is a city that can't be found in earth but it exists in a  
parallel universe. It looks between Madrid, Vienna and Paris. Sean  
and Megan walk through in the breathtaking park of Kalmati that is  
built in the middle of the city. We see beautiful gardens, trees  
that have golden leafs, skyscrapers, water fountains, sculptures of  
saints and Angels... etc.

MEGAN  
(Not really impressed)  
This is beautiful.

SEAN (CONT'D)  
...Anyway... Even the universe  
that we know is huge. There are no  
enough formulas to explain space  
and time. And if Scientists try to  
measure every matter in the

universe, the universe will clasp  
into black hole, disappear and  
reappear in a parallel universe in  
the form of white hole...

Sean and Megan teleport and come to Celit.

EXT. CELIT (PARALLEL UNIVERSE) - DAY

Celit is another city that can't be found in earth. But it exists in a parallel universe. It looks like New York City, St. Petersburg and Rio De Janeiro. we see Skyscrapers, breathtaking churches and riveting beaches side by side. Sean and Megan walk in the boardwalk...

MEGAN

What is white hole?

SEAN

White hole is reverse side of a  
black hole... which in the case of  
black hole, nothing escapes from  
its gravitational force...  
including light. Thus it forms a  
white hole in a parallel universe.

MEGAN

I get it.

Sean and Megan walk through the thin air and come to Tavila...

EXT. TAVILA (PARALLEL UNIVERSE) - DAY

Tavila is a city in a parallel universe. It looks like Venice. It's built on water. Yet unlike Venice, they don't have gondolas. Instead, they have cars that fly in the air, motorboats, Jet skis... etc. Sean and Megan walk in a bridge.

SEAN

But that is a different story. You  
see...Science does not give you  
explanation for the soul,  
consciousness, self awareness and  
others that are beyond the  
physical law of nature. Science  
deals with things that can be  
proven by observation and  
experiment.

Sean and Megan walk through the thin air and come to St. Vincent Islands...

INT. ST. VINCENT ISLANDS (PARALLEL UNIVERSE) - DAY

We see about 120 breathtaking churches that are built on St. Vincent Islands and 600 feet sculpture of Christ. There is a big tourist boat that cuts through the Islands. Sean and Megan walk down the boat...

SEAN (CONT'D)

...In the other hand, Christianity tells you how god created Adam from dust and breathed into his nostrils the breath of life. It's more visual and imaginative than how scientists explain....

Sean and Megan walk through the thin air and come to Gebti.

EXT. GEBTI (PARALLEL UNIVERSE) - NIGHT

Gebti is another breathtaking city that is built on the water. It looks like Amsterdam. But it's 100 times more spellbinding than Amsterdam. Beautiful weather, Clear skies, Big bright white moon and Millions of sparkling stars ( as if we can reach them with our hands and collect them). Sean and Megan walk in a bridge...

SEAN

...a comet, carrying the building blocks of life, crashed in to earth four billions years ago, and gave birth to the first living organisms. And down the line, they evolved into lizards and then later into mankind.

Sean and Megan walk through the thin air and come to the cathedral church of St. Mary in Mevi City.

EXT. CATHEDRAL CHURCH OF ST. MARY (PARALLEL UNIVERSE) - DAY

It's one of the biggest cathedrals in the multiverse. It's 100 times bigger than the cathedral church of Notre Dame in Paris. There is a water fountain with 74 feet sculpture of St. Mary and dancing waters. We also see additional forty two water fountains. Sean and Megan walk by the church...

MEGAN

You are talking about Creation Vs evolution?

SEAN

Something like that. Evolution is not as glamorous as Creation.

Sean and Megan walk through the thin air and come to Seville Church in a parallel universe.

INT. SEVILLE CHURCH (PARALLEL UNIVERSE)- NIGHT

It's 30 times bigger than Seville Cathedral that we know and love in earth. It's intoxicating. We see hundreds of candlelight and all kinds paintings of saints and angels. There is the sculpture of Christ on the cross in the chapel. Sean and Megan walk down the aliases...

SEAN (CONT'D)

That's why you have a lot people believing in god and building breathtaking Churches like the cathedral church of Milan, and Seville Cathedral through out the multiverse.

Sean and Megan walk through the thin air and come to Belen in a parallel universe.

INT. BELEN MUSEUM - DAY

It's one of the biggest museums in the multiverse. We see evolution unfold in 3D video, big glasses display and Holograph: how a comet collides into earth. It then forms ocean... followed by Microorganism... fish... dinosaurs... birds... reptiles... land mammals and human beings as if they are alive. Sean and Megan walk down the museum...

SEAN

Nobody really wants to be told they came from fish. As perspicacious as Evolution is, it lacks spiritual animation.

MEGAN

Are you saying it is boring?

SEAN

It's not boring. It just... People

prefer the story how god creates  
Eve from Adam's rib...

Sean and Megan walk through the thin air and come to St. Rafael  
Museum in Veronica (parallel universe).

INT. ST. RAFAEL MUSEUM (PARALLEL UNIVERSE) - DAY

It is one of the biggest High Renaissances paintings, modern arts  
and religious Sculptures collection in the multiverse. It is like 60  
football stadiums wide. We see creation unfold: paintings of Adam  
and Eve in the garden of Eden; a nude sculpture of Eve; Paintings of  
Eve with angels; Sculptures of Adam and Eve; paintings of a serpent  
tricking Eve into eating the forbidden apple... etc. Sean and Megan  
walk by the paintings and sculptures.

SEAN (CONT'D)

(Quoting Geneses)

"God caused a deep sleep to fall  
upon Adam, and he slept: and he  
took one of his ribs, and closed  
up the flesh instead thereof; And  
the rib, which God had taken from  
man, made he a woman, and brought  
her unto the man."

Sean and Megan walk through the thin air and come to Florita at the  
fountain of Creation (parallel universe).

EXT. FLORITA - FOUNTAIN OF CREATION (PARALLEL UNIVERSE) - DAY

We see a football size of water fountain with the sculptures of Adam  
and Eve in the garden of Eden at the Florita square. It's marvelous.  
Sean and Megan walk by the water fountain.

SEAN (CONT'D)

The man said, "This is now bone of  
my bones and flesh of my flesh;  
she shall be called 'woman,' for  
she was taken out of man."

MEGAN

That is from the bible?

SEAN

Geneses Verses 2:21- 23.

MEGAN

(Humorously)

I can't believe you know the  
verses how god created the first  
woman by heart. That is so  
romantic.

Sean and Megan walk through the thin air and come to St. Matthew  
Museum in Selti (parallel universe).

INT. SELTI - ST. MATTHEW MUSEUM (PARALLEL UNIVERSE) - DAY

It's one of the biggest High Renaissance paintings collection. we  
see Oil on poplar paintings of nude Eve offering nude Adam the  
forbidden fruit; Adam and Eve covering themselves with leafs after  
they found out they are nude; God banishing Adam and Eve from The  
garden of Eden... etc. Sean and Megan walk by the paintings...

SEAN (CONT'D)

Anyway, they ate the forbidden  
fruit. God then banished them from  
the Garden of Eden. People would  
rather hear how the first man and  
woman created in the image of God  
and their banishment from the  
Garden of Eden after they ate from  
the tree knowledge of good and  
evil and how they multiplied in  
earth...

Sean and Megan walk through the thin air and comes to City of Teita  
(parallel universe).

EXT. TEITA (PARALLEL UNIVERSE) - DAY

Teita is one of the most beautiful city in the multiverse. Words  
can't describe it. City is built around 224 breathtaking waterfalls.  
We have no idea how they build it. Sean and Megan walk in a bridge  
that cut through the waterfalls and the city itself...

SEAN (CONT'D)

...than a bacteria evolved into  
more complex living things and  
created diversity.

MEGAN

(Under her Breath)

It's true.

Sean and Megan teleport and come to St. Peter's Basilica in Vatican  
City in a parallel universe.

INT. ST. PETER BASILICA - VATICAN CITY (PARALLEL UNIVERSE) - DAY

Sean and Megan walk down the basilica; looking at the Late Renaissance paintings and the wondrous architecture inside St. Peter's Basilica...

SEAN

...Imagine Sandro Botticelli,  
Domenico Ghirlandaio, Pietro  
Perugino, Raphael and Michelangelo  
paint Sistine Chapel ceiling with  
comets, rocks, ices, fish,  
dinosaurs, birds, frogs,  
crocodiles and Charlie Darwin...

Sean and Megan teleport within St. Peter's Basilica and walk down the Basilica, looking at Michelangelo's The Creation of Adam on the ceiling of Sistine Chapel.

SEAN (CONT'D)

...instead of the Creation of  
Adam; God giving life to the first  
man; The prophet Daniel, rendering  
of the Persian Sibyl, The Libyan  
Sibyl and all those Prophets,  
saints and angels.

MEGAN

I can't imagine.

SEAN

Or replace Leonardo Da Vinci's the  
last super with Neanderthals

Sean and Megan walk through the thin air and come to Santa Maria delle Grazie in Milan.

INT. SANTA MARIA DELLE GRAZIE - DAY

Santa Maria delle Grazie is a church. The church is home of the mural of Leonardo da Vinci's the Last Supper. Sean and Megan look at Last Supper by Leonardo da Vinci in the refectory of the convent

SEAN (CONT'D)

...instead of Christ having the  
final meal with his Apostles in  
Jerusalem before his  
crucifixion... What would have

been like human faith...?  
(Humorously)  
It's like going to museums and ...

Sean and Megan walk through the thin air and come to Kepton Museum

EXT. KEPTON (PARALLEL UNIVERSE) - DAY

Kepton defies any science museum we have ever seen. It's one of the biggest exterior museum in the multiverse. We see all kinds of rocks (comets) and Dinosaur skeletons and other prehistoric remains. Sean and Megan walk down the museum...

SEAN (CONT'D)  
(Humorously)  
It's like going to museums and  
worshiping the skulls and rocks  
that form the earth. It will throw  
you off guard.

MEGAN  
It does. But I don't mind going to  
museums and looking at the early  
human history. They are still our  
history...

Sean and Megan walk through the thin air and come to Tavile...

EXT. TAVILE (PARALLEL UNIVERSE) - NIGHT

Tavile is one of the most beautiful cities in the multiverse. It's built next to the ocean. Tavile is between Miami, Athens, New Orleans, and Dubai. A Big Carnival is in progress. It's a festival of the goddess Megan. We see 2000 feet of Megan statue in the Megan Island and Millions of candlelight in the ocean. The statue of Megan has the stigmata of Christ on her wrists. Megan looks at it in awe... Sean and Megan stand lips to lips...

MEGAN  
(Seductively down by his lips)  
Tell me how you did this.

SEAN  
(Softly down by her lips)  
I didn't do anything.

Sean and Megan kiss French.

INT. SEAN'S HOUSE (TAVILE) - BEDROOM - NIGHT

Sean and Megan make love. It's steamy, seductive and passionate. We will stay with them with serious cuts.

EXT. TAVILE OCEAN - BATHTUB - NIGHT

Sean and Megan are in the bathtub that is placed in the middle of the ocean with thousands of rose and millions of candlelight. Megan rests on Sean's chest with closed eyes. Sean is behind reciting William Shakespeare's 154 sonnets from his memory.

SEAN

(softly by her neck)

My mistress' eyes are nothing like  
the sun;  
Coral is far more red than her  
lips' red;  
If snow be white, why then her  
breasts are dun;  
If hairs be wires, black wires grow  
on her head.  
I have seen roses damasked, red and  
white,  
But no such roses see I in her  
cheeks;  
And in some perfumes is there more  
delight  
Than in the breath that from my  
mistress reeks.  
I love to hear her speak, yet well  
I know  
That music hath a far more pleasing  
sound;  
I grant I never saw a goddess go;  
My mistress when she walks treads  
on the ground.  
And yet, by heaven, I think my  
love as rare  
As any she belied with false  
compare.

He kisses her on the shoulder.

MEGAN

(with Closed eyes)

Sean?

SEAN

(Under his breath)

What is it?

She opens her eyes...

MEGAN

Is there a copy of me exist in a parallel universe?

SEAN

No. you are the only one.

They kiss.

MONTAGE

EXT. STREET - SEAN'S MERCEDES CONVERTIBLE - NIGHT

VANESSA (32) stands next to Sean's convertible. She is an Agent, works for Central Multiverse Agency that regulates the cosmos. We have seen her in "Quantum Stardust". Sean looks at her.

VANESSA

Hi

SEAN

What is it?

VANESSA

John wants to have few words with you.

A LIMO comes driving and stops next to Vanessa and Sean. A man named WESLEY exists from the driver seat.

EXT. LIMO - NIGHT

Wesley opens the back door for Sean and Vanessa. Sean and Vanessa

enter in to the Limo. Wesley closes the door, walks around the car, and gets back in the driver seat. The Limo drives away.

Then at the entrance, Vanessa and Sean enter. They come to an open table and sit. A waitress comes to their table...

WAITRESS

How can I take your order?

SEAN

I'll have a glass of wine.

VANESSA

Scotch. Johnny Walker Blue Lable

The waitress writes down their orders and walks away. Vanessa and Sean watch John, who continues to sing blues like John Lee Hooker...

VANESSA

You have a lot of explaining to do.

Sean says nothing. We stay with Sean, Vanessa and John for a bit.

INT. BLUES CLUE AND BAR - LATER

Sean, Vanessa, John and a girl named KATE (24) sit at the table and talk. Sean and Vanessa's drinks have already been served. John has a glass of Milk. Kate has Whiskey.

JOHN

(To Kate who is looking at Sean as  
if she is in love)  
Do you have a question for him?

KATE

Yes, I do.

(To Sean)

Do you know who invented blues?

SEAN

No.

JOHN

(Looking at Sean)

I'll answer that... You see...  
Blues music was not invented by one particular person. Instead, blues music developed over the course of the past 150 years. After the Civil War, the blues began in the North Mississippi Delta. People were influenced by ballads, church music, rhythm and their African roots. They habitually used a method known as call-and-response, where the lead singer would sing a line and then respond with his guitar. Mamie Smith recorded the first vocal blues song in 1920. Throughout the '20s and '30s, well-liked blues singers such as Bessie Smith and Billie Holiday came to the scene. The 1940s and 1950s witnessed the dawn of Muddy Waters, Willie Dixon, John Lee Hooker, Howlin' Wolf and Elmore James in Chicago and Detroit. Then T. Bone Walker in Houston and B.B. King in Memphis took the blues by storm. Later, The Rolling Stones, Eric Clapton, Jimi Hendrix and others begin to adapt blues music to their styles and become the testament of blues revolution.

Sean says nothing. John grabs his Milk, takes a sip, and put it back ...

JOHN

I heard you have been teleporing through out the multiverse.

Sean remains silent. There is a silent moment. John grabs his Milk, drinks everything, and puts the glass on the table.

JOHN

When You walk up in the morning.  
You will not remember anything.  
You can go now.

Sean gets up and leaves.

Jake talks to Marilyn Monroe who is holding a glass of Whiskey. We see liquor coming out of the thin air and filling Marilyn's glass mysteriously.

At the private bar, we see Jake's copy pouring the liquor for Marilyn Monroe: He just pours down the liquor in the air; The liquor exits from the bottle, goes through the tine air (disappear) and comes out in a different dimension, and fills Marilyn Monroe's glass.

Paris and Rita are present. They can be seen talking to Two of Jake's copies. We see all kinds of Jake's copies walking through the wall, popping out of the thin air, mingling and talking to the stars, and doing all kinds of quantum tricks... like standing in the air, turning liquid into molecules..., rearranging the molecule and then changing them into flowers and other tricks.

PARIS

Where have you been? We missed you.

Paris kisses him on the cheek.

RITA

I couldn't stop thinking about  
you.

Rita kisses him on the lips. Sean nods to Jake's copies, greeting.  
He excuses Paris and Rita, and walks toward the kitchen.

Jake, who is now talking to Audrey Hepburn while holding a glass of  
whiskey, looks at Sean. Jake excuses Audrey and walks up to Sean.

JAKE

What's up?

SEAN

Nothing much

JAKE

I got this Irish Whiskey from  
some parallel universe. You have  
to try it. It tastes like mint.

Jake pulls a glass out of the thin air, lets it hang in the air  
(next to Sean) magically. Then the liquor comes out the thin air and  
fills Sean's glass miraculously. Sean takes the glass.

JAKE

Cheers

They connect their glasses and have sips. Sean looks around...

SEAN

Where did all the movie stars come  
from?

JAKE

I got them throughout the  
multiverse. They are not famous.  
They are regular people. Some of  
them are doctors and scientists.  
Others are blue color works...  
Anyway I have to get back to  
Audrey Hepburn. She is most  
fascinating of them all. I'll see  
you.

SEAN

(under his Breath)

Take care

Jake goes back to Audrey Hepburn. Sean walks up to the kitchen. On the soundtrack, music plays.

Rita comes to the kitchen in shirt and underwear...

RITA

Hi

SEAN

Hi

RITA

I'm Thirsty. You guys have diet coke?

Rita opens the refrigerator, grabs a can of diet Pepsi, pop-opens the top and takes a sip. Sean puts the rings back in his pocket.

RITA  
What are you watching?

SEAN  
Vision.

Rita begins to watch the movie while taking sips.

RITA  
Is that Megan Ryder?

Sean nods yes.

RITA  
Jake told us You guys have been  
making out throughout the  
multiverse, is it true?

SEAN  
It doesn't matter. I can't see her  
anymore. I got a warning from  
Central Multiverse Agency. They  
said when I walk up in the morning  
I'll not remember anything.

There is a silent moment. They continue to watch the movie. Rita  
turns his eyes and looks at him. Sean is into the movie...

RITA  
They can play with your memories  
but they can never touch your  
heart.

She kisses him on the cheek...

RITA  
I'll see you.

SEAN  
Bye

Rita leaves. Sean continues to watch the move while taking sips from

MEGAN

Please to meet you.

SEAN

Pleasure

MEGAN

Jennifer and I went to high school together. She told me you guys just got engaged. Congratulation.

SEAN

Thanks

There is a silent moment.

MEGAN

It's loud here. You want to take a walk outside.

SEAN

Sure

They begin to walk toward the exit, talking. On the soundtrack, Music plays. Jennifer, who is in the middle of talking to a man named RYAN, looks at Sean and Megan as they exit.

EXT. HILTON HOTEL - GARDEN - DAY

Bright moon. Sparkling stars. Spellbinding gardens. Sean and Megan take a walk...

MEGAN

How did you and Jennifer meet?

SEAN

I met her through Jake... my friend...

(Off her look)

One day, He was having a fourth of July barbeque party. He invited me. I was planning on going to a movie with this girl I met in a club. But something came up in the last minute. She called and said that her grand mother got into a car accident. She couldn't make it. I went to the barbeque. Jennifer, who happened to be there, gave me a sweet soft smile. Jake introduced us. We talked. One thing led to another. We became inseparable.

MEGAN

You then asked her to marry you.

SEAN

I then asked her to marry me in front of 76,000 people at the Dodgers stadium. We were in ESPN.

MEGAN

I think I heard the story. But I didn't know it was you guys.

SEAN

It was us. We were in the Tonight show with Jay Leno, too.

MEGAN

Do you believe that? She didn't tell me anything. She was supposed to be my best friend.

SEAN

I noticed... She didn't even introduce us. What is the story between you and Jennifer?

MEGAN

It's nothing. I mean a little bit misunderstanding. She and I were Cheerleaders. She was going out with the quarterback. It was senior year. There was a party at his house. Everybody was drunk. He

came out of nowhere, carried me to his room while I was screaming. He kissed me. I didn't know what I was doing... I kissed him too. Then she walked in to the room and saw us. The next day, I apologized; I told her there was nothing between him and me. I was drunk. She said, "Don't sweat it." She was thinking about dumping him anyway. But our friendship had never been the same. She went to Arizona state. I went to UCS. I stayed for a semester and pursued acting and got where I am.

SEAN

Things happen for a reason.

MEGAN

Anyway, do you mind asking why you were looking at me earlier?

SEAN

Was I really?

MEGAN

I catch your eyes a million time.

SEAN

Maybe I know you from past lives.

A wind blows. Sean sees all kinds of hidden dimensions. Sean pulls a rose out of a thin air and gives her the flower. Megan takes the rose in amazement.

MEGAN

How did you do that?

Another wind blows and takes away Sean's memory and awareness of accessing the rose from a parallel dimension.

SEAN

What?

Sean has no clue what she is talking about.

MEGAN

Are you magician?

Sean smiles softly thinking She is joking.

SEAN

No. I am not.

SEAN

So how did you do it?

SEAN

Did what?

MEGAN

You just pull the rose out of the  
Thin air.

-- thinking she is kidding around --

SEAN

Did I?

MEGAN

Where did it come from?

SEAN

I picked it up from that chair...

Sean points at a bench that happens to be in the garden...

SEAN (CONT'D)

...I don't know who left it. Why?

MEGAN

Unless You are the greatest  
magician in the world. Regardless,  
I've never seen anyone pulled a  
rose out of the thin air.

SEAN

(Humorously)

What are you saying? I'm a clown.

MEGAN

Why don't you tell me...? Did you  
use to work in circus

Sean smiles softly, thinking she is playing around. On the  
soundtrack, music comes. They continue to talk as they exit the park  
and walk in to the street...

INT. HILTON HOTEL - MEN'S BATHROOM - NIGHT

It is a big bathroom. There are 10 boxes. Jennifer and Ryan, who is holding Rachel's purple underwear, walk in to the bathroom, making kissing. Ryan and Jennifer enter one of the boxes and begin to have sex...

INT. HILTON HOTEL - PARTY - NIGHT

EXT. HILTON HOTEL - MEN'S BATHROOM - BOX - NIGHT

Jennifer and Ryan continue to have sex.

EXT. HILTON HOTEL - MEN'S BATHROOM - NIGHT

Jake walks in. He takes out a cigarette and a lighter from his pocket, lights the cigarette and begins to smoke as he takes a leak. He then hears Jennifer and Ryan having sex in the box. Jake ignores it and continues to pee.

Jake then comes to The Faucet to wash his hands. He sees Jennifer's purple underwear on the floor.

QUICK FLASHBACK (Montage): VICTORIA SECRETE STORE: We see Jake and Sean shopping. Jake grabs the same purple underwear that has a playboy bunny logo and shows Sean. Sean takes the underwear and puts it in his pocket. Cut to: Victoria Secrete store: Sean and Jake exit the store without paying. Cut to: RESTAURANT: Sean, Jennifer, Jake and a girl named Natalie have double date. Sean takes out the underwear from his pocket and gives the underwear to Jennifer as a gift. Jennifer removes her old underwear, gives Sean the underwear, and puts the new underwear in front of everybody.

BACK TO: HILTON HOTEL

Jake picks up the underwear and looks at Jennifer and Ryan having sex through the tiny space between the door and the column.

Jake shakes his head in disbelief, puts the underwear in his pocket, turns around, and exits.

EXT. LOS ANGELES STREET - NIGHT

Megan and Sean walk in the street of Los Angeles, conversing...

SEAN

...Scientist says all atoms in the cosmos are made of this tiny thing called string.. How they vibrate determine the shape of each matter. For example, if a string vibrates in a certain way, it will manufacture a proton. If it vibrates in a different way, it'll produce an electron. It's like guitar chords and how they vibrate to produce different sounds based on the scale... like C major, C Minor, E major, E Minor and other chords. Each sting is coded with Universal order. If you look at them closely... at the deepest, profoundest point, they will take us to a parallel universe through natural wormholes... They can unleash our maximum verve... which means I can be here and there. I can teleport anywhere I want to. They will eventually lead us to the mind of God... And if we can understand our true potential, we will see how the first string... before Amino Acids, before proteins, before RNA... and DNA... how the first life animation, coded with the universal force of life, the orgin of soul, teleports from a parallel universe trough quantum vaccum and create life as we know it.

MEGAN

I know what you mean... Each star is like the sun. And The Sun is one star among 100 billions stars in our milky way. And there are over billions galaxies in the universe that is created 13.7 billions years ago in big bang. Most of us we don't know why we are here and who created us. Yet I still believe there is a divine order that governs the universe; A divine creator that make it all

possible.

SEAN

The fact is nobody really knows what made it all possible or what bangs? Universe might come out of nothing. According to quantum theory, a particle can form out of nothing. It pops in and disappears again. They could be multiple universes that we don't know about them.

MEGAN

To be honest, I don't know anything about quantum Theory or multiverse. I only played this girl, who fell in love with a guy who could be multiple places at once, in Quantum Lotus. As far as I know, I am put in this world for a reason. I value my uniqueness more than anything.

SEAN

That is a powerful statement; valuing one's uniqueness more than anything. But we live in infinite space. I don't think we should limit ourselves in our uniqueness.

(humorously)

There could be universes where I am a doctor or a movie star, starring... What is your new movie?

MEGAN

Which one? I have two movies coming... Fatale and Bette Davis Eyes.

SEAN

I like Bette Davis Eyes. It sounds risqué. There could be a universe where I am an actor, playing the lead role in Bette Davis Eyes... or an original movie called "Flame" starring you and me.

MEGAN

Or there could be a universe we  
are husband and wife.

SEAN

Or there is a universe where you  
are the princess of Morning  
Stardust... a country that can't  
be found in earth but exists in a  
parallel universe. And Its  
resource relies on the Princess's  
eyes that turn heart into  
diamonds. I'm a prince of Evening  
Stardust. I came to visit you and  
lavish you with gifts that consist  
of moons and stars. Because I  
think you are the most beautiful  
girl in all universes.

She smiles in beauty.

MEGAN

(playing along)

Whatever...

They sit in the sofa that happens to be left in the street...

MEGAN (CONT'D)

Let's talk about something else.  
What do you really do?

SEAN

I write articles for Vanity Fair.

MEGAN

You are a journalist.

SEAN

Sort of.

MEGAN

What is sort of?

SEAN

I am actually a poet. I took the  
Job, because it pays good.

They get closer lips to lips...

MEGAN

What is the best part of poetry.

Sean looks at her soul straight through her eyes...

He then:

SEAN

In your lips I trust.  
From flesh to spirit;  
From the inner core to the crust;  
All that's made of Hunger and Thirst;  
Breath and Passion; Dirt and Lust;  
It is written: It's a Must.  
All souls are obliged to return to dust,  
And resurrect of the blood that's  
Thrust into the limelight...  
Tongues that are addicted to the gust;  
French kiss is to curve eternity  
Till all causes are just...  
And transcend crucifixion into fever,  
Engraved Deep in the mist without a rust;  
You and I are forever to be immortalized  
In wild flowers and burst into stardust!

They kiss. Megan slips her lips seductively.

MEGAN

I don't think we should do this...

They kiss more intimately. She then parts her lips, gets up and walks away. Sean looks at her as she continues to walk down the street... Megan turns at the corner of the street and disappears from our view.

Sean continues to look at the direction that she left. He then turns his eyes, and looks at the stars in the skies. On the soundtrack, music comes.

EXT. BEACH - WEDDING CHAPEL (JENNIFER AND SEAN'S WEDDING) - DAY

A small wedding is in progress. We see about fifty guests; friends and family. Sean, who is wearing a tuxedo, stands at the chapel. Jake is present; he is best man. Megan, wearing a beautiful light Yellow Valentino Gown, stands across Sean. She is Bridesmaid. We see Paris and Rita next to Megan. They are Bridesmaids as well.

Sean looks at Megan. She gives him soft seductive smile yet self conscious she is not happy that he is getting married. Sean returns

her smile politely and looks away.

Jake looks at Ryan who is sitting at the front row. He wants to tell Sean what he saw. But for some reason he chooses to hold his peace.

Then wearing an invigorating wedding gown, Jennifer walks down the aisles, escorted by UNCLE JAMES.

Sean looks at her in wonder as she continues to walk down the aisles... He then takes Jennifer's hand. Sean and Jennifer walk forward and stand in front of the priest.

PREIST

We are gathered here in the  
presence of these witnesses to  
join this man and this woman  
together in matrimony.

Sean steals a look at Megan who is looking at him as if she is lost.

PREIST (CONT'D)

...The contract is a most solemn  
one and not to be entered into  
lightly, but thoughtfully and  
seriously with deep realization  
of its obligations and  
responsibilities. Therefore if  
any one can show any just cause,  
why they may not lawfully be  
joined together, let him or her  
now speak, or else hereafter for  
ever hold his or her peace ...

JAKE

I object!

They all look at him...

JAKE (CONT'D)

I saw the bride and that man over  
there...

Jake points his finger at Ryan. Everybody looks at Ryan.

JAKE (CONT'D)

...Ryan Dillon having Sex in the  
bathroom at the Hilton hotel two  
weeks ago.

Jennifer wants to kill Jake. Ryan wants to get up and run but remains in his chair...

JAKE (CONT'D)

(To Sean)

I wanted to tell you... but I didn't know what you were about to be entering; the weight of marriage and its obligations and responsibilities... I am Sorry Sean. You deserve the best. I know you since I was a kid. You should be with someone who loves and respects you. I don't think Jennifer is the right person for you.

JENNIFER

Who the fuck do you think you are?!

Jennifer throws the veil at Jake that she was holding.

JENNIFER (CONT'D)

You waited in the last minute on the day of my wedding and tell lie about me.

(turns to Sean)

Don't believe him. He just wants to fuck me. I turned him down so many time. Now he wants revenge. He is trying to ruin the best day of my life. I love you, Sean. Don't let him come between us.

Sean looks at the situation in confusion. The guests make sounds: what is going on? MRS. LESTER, Jennifer's mother, gets up from the first row.

MRS. LESTER

I saw them having sex at my house. She is taking you for a ride.

JENNIFER

They are lying! Don't believe them.

Jake takes out Jennifer's underwear from his pocket.

JAKE

I think this belongs to you. You  
left it in the bathroom.

Jennifer cries, collects her dress and walks rapidly toward the exit. Sean looks at her as she leaves. He turns his eyes and catches Megan's eyes who is looking at him. Megan gives him a soft beautiful smile and follows Jennifer to comfort her. Ryan gets up and walks away as the guests continue to mumble...

UNCLE JAMES

(To Jake)

Thanks. It's perfect time to bring  
it.

Uncle James shakes his head in disappointment and walks away. Jake looks at Uncle James as he continue to leave...

JAKE

(Behind Uncle James's Back)

Fuck you too.

Jake turns to Sean.

JAKE

I'm sorry, Man. I wanted to tell  
you right after it happened. But  
you asked her to marry you in  
front of 100 thousand people at  
the dodger stadium.

SEAN

It's okay man. Things happen for a  
reason.

JAKE

They sure do.

(a beat)

But don't let the bug bite you.

SEAN

what bug?

JAKE

Never mind...

Sean knows what he is talking about but chooses to say nothing.

JAKE (CONT'D)

Here

(Gives him the underwear)

You should have paid for it. None  
of these would have happened.

Sean smiles softly. He remains silent. Both Jake and Sean look at the crowd as they continue to leave. Jake sees Paris and Rita standing at the exit of the chapel.

JAKE

Anyway... I'll see you around.

Sean nods 'sure'. Jake walks up to Rita and Paris. Sean looks around. Almost everybody is gone... except few guests and the wedding planners. We see Jake, Rita and Paris leaving...

Sean then looks at the sky. The image of Megan appears on the sky mysteriously. She smiles at him sweetly and disappears. Sean smiles softly to himself and walks towards the exit. He puts the underwear on a chair, and continues to walk down the aisles...

We then take it with overhead shot, looking down the chapel and spellbinding pacific ocean on the coast of California... waves crashing on the rocks. We move down the coastline, looking down buildings and beach houses... We see earth from space. We do 360 around the globe...

EXT. BEACH - WEDDING CHAPLE - OPEN PARKING LOT - DAY

Sean walks toward his 2010 Corvette Convertible. He sees Megan who is standing next to her 2014 BMW convertible, parked next to Sean's Jaguar Convertible...

MEGAN

Hi

SEAN

hi

MEGAN

I talked to Jennifer. She said she is sorry. She wants you to forgive her.

SEAN

I've already forgiven her the second I saw your smile at the wedding Chapel.

Megan smiles in beauty. There is a silent moment.

She then:

MEGAN

What is next?

SEAN

I don't know... Do you want to  
garb lunch. I haven't eaten the  
whole day.

MEGAN

Sure. Where do you want to go?

SEAN

Let's go to Viola. It's 30 minutes  
drive. They have the best seafood  
in California.

MEGAN

Okay... Can we take your car...?  
I am not good at following people.

SEAN

Sure.

Sean opens the passenger door for Megan. She gets in the passenger  
Seat. Sean closes the door, walks around the car, gets behind the  
wheel, starts his car. Sean and Megan drive away.

INT. SEAN'S CONVERTIBLE (MOVING) - DAY

Sean and Megan continue to drive in the street of California. There  
is a silent moment.

She then:

MEGAN

I have a confession to make.

SEAN

What is it?

MEGAN

I was praying for earthquake or  
something. I didn't want you to  
get married.

SEAN

Why?

Megan takes off her underwear and throws it at his lap.

MEGAN

Because I love you.

Sean takes her underwear and places it in his pocket.

SEAN

I love you too.

Megan unbuckles her seat belt, comes up to Sean and sits on his lap in the driver seat. Megan and Sean kiss.

Medium shot of Sean's Jaguar Convertible with Sean and Megan as they continue to drive while kissing...

Sean pulls over at the side of the road (next to the cliff... wave crashing on the beautiful geological formation rocks... and the view of Pacific ocean). Sean and Megan kiss and begin to make love.

They must have entered a parallel universe. We see TWO DARK GOLD ORANGE SUNS (Twilight) and 14 moons and millions of sparkling stars.

CU - SEAN AND MEGAN

They kiss more passionately as they continue to make love.

INT. SEAN'S HOUSE - BEDROOM - NIGHT

Sean and Megan make love. It is seductive sensual steamy and passionate. We stay with them with serious cuts.

INT. SEAN'S HOUSE - LIVING ROOM - NIGHT

Sean and Megan sit in the bathtub that is placed in the middle of the living room with hundreds of candlelight and rose petals. Megan rests on Sean's chest with closed eyes. Sean recites Geoffrey Chaucer's Merciless Beauty (Excerpt) from memory.

SEAN

(Softly by her neck)

Your eyes two will slay me  
suddenly;

I may the beauty of them not  
sustain,

So woundeth it throughout my  
hearte keen.  
And but your word will healen  
hastily  
My hearte's wounde, while that it  
is green,  
Your eyen two will slay me  
suddenly;  
I may the beauty of them not  
sustain.  
Upon my truth I say you faithfully  
That ye bin of my life and death  
the queen;  
For with my death the truthe shall  
be seen.  
Your eyen two will slay me  
suddenly;  
I may the beauty of them not  
sustain,  
So woundeth it throughout my  
hearte keen.

He kisses her on the shoulder. There is a silent moment.

She then:

MEGAN  
(with closed eyes)

Sean

SEAN  
(under his breath)  
What is it, Dream boat?

Megan opens her eyes

MEGAN  
Let's get married in Paris at the  
Noter Dame Cathedral

Sure

They kiss French.
