EXT. CITY - DAY

Buses, taxi's and cars, all with eyes and mouths. Each different, smile away on their morning commute. Greeting each other as they drive past one another.

RED CAR

Morning.

PURPLE CAR

Morning.

A cute orange car GARY. Podcaster, joins the commuters, who get excited when they see him.

ALL CARS

Gary!

GARY

Hey Guys! As you can hear everyone is in great spirits this morning on their daily commute. Catch up with me later on my podcast, when I will be interviewing Lawrence the lorry as he heads to the children's hospital to deliver lots of toys to all the boys and girls.

WHITE CAR

Love your podcast Gary.

GARY

Thanks!

A black pick up truck, with the ability to fly. PHOENIX FLYER, weaves in and out of the traffic.

PHOENIX FLYER

Excuse me! Coming through.

CHIEF PARKER. Ploddy old police car, glasses and a big white moustache, warns Phoenix Flyer.

CHIEF PARKER

Slow down Phoenix Flyer!

PHOENIX FLYER

Sorry Chief Parker.

We follow several unique cars, as they make their journey to their owners place of work.

NITRO - A yellow sports car, overtakes several vehicles, showing off his super speed.

CHIEF PARKER

That goes for you too Nitro!

Next up LECTRO, green electric car. Drives alongside TOYA, pink smart car. They stop at some traffic lights.

TOYA

Oh, hey Lectro. I didn't hear you pull up.

LECTRO

That's the joys of having an electric engine.

The traffic light turns green.

LECTRO (CONT'D)

Oh, that's us. How long until you get to the salon?

TOYA

According to my calculations. At this speed, I should get there in approximately seven minutes.

Toya and Lectro turn off in different directions.

LECTRO

Bye Toya!

Off road, RED ROVER. A red four by four jeep, makes his big entrance, as he crashes through some bushes.

RED ROVER

Watch out! Red Rover coming through.

Red Rover pulls up onto a farm.

EXT. FARM - DAY

Stepping out of the vehicle, a farmer, who we see from the waist down. Red Rover remains perfectly still. A sheep makes his way over to red rover.

SHEEP

Baaaaaaaaa!

Red Rover mumbles to Steven the sheep.

RED ROVER

Not now Steven!

SHEEP  
Baaaaaaaaaaa!

With no humans in sight, Red rover turns to Steven.

RED ROVER  
Oh, hey Steven.

SHEEP  
(happy)  
Baaaaaaaaaaa!

RED ROVER  
Am I ready for another game of hide  
and sheep?

SHEEP  
Baaaaaaaaaaa!

RED ROVER  
Go on then! Find yourself a hiding  
spot and I'll come and find you.

Steven the sheep skips off happy looking for a hiding spot.

EXT. SALON - DAY

Toya pulls up outside a building that has the words "SALON"  
above it's door. Her owner steps out the vehicle, once again  
we only see the owner from the waist down.

A lilac car turns to Toya.

LILAC CAR  
Toya, there's something different  
about you today?

TOYA  
Well, I had my M.O.T over the  
weekend.

LILAC CAR  
(confused)  
An M.O.T?

TOYA  
Make over treatment.

LILAC CAR  
Oh, tell me more.

As Toya is about to explain we cut to Lectro pulling up into  
a car park with a special parking bay.

EXT. CAR PARK - DAY

His owner steps out and attaches a charging cable to him.

LECTRO  
(relaxed)  
Ahhhhh.

Lectro begins charging.

EXT. CONSTRUCTION SITE - DAY

Next up we see Phoenix flyer arriving at a construction site. His owner parks opposite a cement mixer named DAVE. His owner steps out carrying a hard hat. Phoenix flyer remains motionless until his owner is out of sight.

DAVE  
The coast is clear.

PHOENIX FLYER  
Morning Dave. How are you feeling today?

Dave the cement mixer continues mixing the cement.

DAVE  
The usual. Dizzy!

They both chuckle at Dave's comment.

INT. UNDERGROUND CAR PARK - DAY

Finally we head to an underground Car park where NITRO reverses into an empty bay. His owner steps out the vehicle whilst all the cars remain perfectly still.

GARY (V.O.)  
Ever wondered what your cars get up to. When you leave them unattended for the day.

NITRO  
And he's gone.

Nitro turns to the white car parked next to him.

NITRO (CONT'D)  
How was your weekend?

WHITE CAR

It was great! We went to the beach.  
I think I still have sand on my  
tyres. What about you Nitro? What  
did you get up to?

NITRO

You know, this and that.

WHITE CAR

Do you wanna play a game.

NITRO

Sure.

WHITE CAR

Let's play the sitting in silence  
game.

NITRO

Okay.

Nitro and the white car sit in silence, Nitro blinks, trying  
not to talk, until he can't hold in his silence anymore.

NITRO (CONT'D)

How long's it been?

WHITE CAR

Thirty seconds.

NITRO

Woo hoo! That's a new record.

WHITE CAR

Hopefully one day you'll manage a  
whole minute.

NITRO

I hope so.

WHITE CAR

I wonder if anything interesting  
will happen today?

NITRO

Probably not.

WHITE CAR

Do you wanna play another game?

NITRO

Which game?

WHITE CAR

Eye spy.

NITRO

Okay, I'll start. I spy with my little eye something beginning with.

Nitro looks around the dull looking car park.

NITRO (CONT'D)

P.

WHITE CAR

P?

NITRO

Yep.

WHITE CAR

Erm..

The white car looks around puzzled as Nitro awaits an answer. Suddenly Nitro's car radio begins tuning in by itself, to an unknown frequency.

RADIO VOICE OVER (V.O.)

Come in Nitro. Please report to the secret location co-ordinates I have sent you.

With his super speed, Nitro high tails out of the underground car park so fast, the white car doesn't even notice as he continues looking for something beginning with P.

WHITE CAR

A penguin? Nope, there's Penguins here.

The white car continues looking around the car park.

WHITE CAR (CONT'D)

Paraglider? Nope not a paraglider.

EXT. CAR PARK - DAY

While charging Lectro's eyes remain shut.

RADIO VOICE OVER (V.O.)

Come in Lectro. Please report to the secret location co-ordinates I have sent you.

Lectro's eyes widen. He high tails out of the car park with a full charge.

EXT. SALON - DAY

Toya's chat with the lilac car is interrupted by her radio.

TOYA

And they finished off with these fabulous eye lashes.

RADIO VOICE OVER (V.O.)

Come in Toya. Please report to the secret location co-ordinates I have sent you.

TOYA

Oh, I've got to go.

LILAC CAR

Go? But you just got here.

TOYA

Yeah, I need to erm..

The lilac car looks confused.

TOYA (CONT'D)

Finish my make over. New tyres. You know how us ladies like our new treads.

She races off leaving the lilac car looking confused.

EXT. FARM - DAY

As Red rover searches for Steven the sheep. His radio alerts him.

RADIO VOICE OVER (V.O.)

Come in Red Rover. Please report to the secret location co-ordinates I have sent you.

RED ROVER

Red rover on the way.

As Red rover races out of the farm. We see Steven the sheep hiding on the barn roof.

SHEEP

Baaaaaaa!

EXT. HOSPITAL - DAY

Outside the children's hospital. Gary awaits the arrival of Lawrence the Lorry.

GARY

I'm here at the children's hospital  
awaiting for the arrival of  
Lawrence the lorry, I wonder what's  
taking him so long?

EXT. ROAD - SAME

Lawrence the lorry happily drives down the road with a big smile on his face. In his side mirror, STEEL SPIDER. A giant robot car, shaped like a spider, begins catching up with Lawrence.

LAWRENCE

A spider shaped car?

STEEL SPIDER

That's right! Steel spider is the  
name. Leader of the super villain  
crew.

Steel spider attaches himself to Lawrence the lorry.

LAWRENCE

Wait? What are you doing? I'm  
supposed to deliver toys to the  
children's hospital.

STEEL SPIDER

Change of plan! Those toys now  
belong to the Super villain crew.

INT. CREW HQ - DAY

In a secret underground location. Five parking bays await each car. Opposite the bays, a giant LED screen with matrix style coding. Nitro arrives and parks up in the first bay.

NITRO

Whoa! What is this place? And why  
have I been called here?

On the LED screen, green lips appears. These lips belong to "D.A.D." Aka Digitally advanced data.

D.A.D

All will be explained.

Next up Lectro arrives and parks in bay two. Followed by Toya in bay three.

TOYA  
I'm here? Not quite sure why?

Red rover enters.

RED ROVER  
Me too.

Followed by the final car Phoenix flyer.

NITRO  
So, we're all a little confused as to why we have been called here? Could you please explain?

D.A.D  
You have been summoned here because you each possess your own unique super power.

NITRO  
And you are?

D.A.D  
I am Digitally advanced data.

TOYA  
Digitally advanced data?

D.A.D  
That is correct.

NITRO  
Can I call you Dad for short?

D.A.D  
Please do not refer to me as Dad.

NITRO  
Yeah, but it's so much easier to say.

LECTRO  
He's right.

D.A.D  
Fine.. If you insist.

NITRO  
Alright!

PHOENIX FLYER

That still doesn't explain why we are all here.

D.A.D

Let me explain.

PHOENIX FLYER

Okay?

D.A.D

Phoenix Flyer, you have a unique ability to fly at super speed. Toya you are super smart, Lectro, you have an ability I've never seen before.

LECTRO

What ability?

D.A.D

You can create a super charge that would get you out of any tricky situation.

LECTRO

But I don't like to use this ability, it's dangerous!

D.A.D

If used right, It could do a lot of good.

RED ROVER

What about me?

D.A.D

Ah, Red rover. You are the fearless one. Super strong with the ability to smash through anything.

NITRO

And what about me?

D.A.D

Nitro. You're super speed makes you the fastest.

PHOENIX FLYER

I thought you said I was fast?

D.A.D

The fastest in the air. On land Nitro posses super speed I have never seen before. Nitro is also a natural leader.

NITRO

That sounds great and all Dad. But why would you bring us all here to tell us that?

D.A.D

Because right now, Steer city is under threat. And I need to form a team of Super cars to stop the Super Villain crew.

RED ROVER

Super Villain Crew?

TOYA

Who's behind all of this?

D.A.D

A giant robot car that looks like a spider. It goes by the name of steel spider.

On the big LED screen surveillance footage is shown of Lawrence the lorry in danger.

LECTRO

Oh no! Lawrence is in danger. He is supposed to be delivering toys to the children's hospital.

D.A.D

That's right Lectro. The toys will not get to the children's hospital if Steel spider has his way.

TOYA

Dad, Pull up exact location surveillance.

Surveillance footage shows Steel Spider attached to Lawrence the Lorry, Suddenly another vehicle pulls up along side them.

RED ROVER

Who's that?

D.A.D

It's another member of the Super villain crew... Hammer Hawk.

HAMMER HAWK, a car with a front end like a hammer and the ability to fly, once spreading it's wings. Moves in on the truck.

NITRO

They are trying to steel the toys.

PHOENIX FLYER

We have to stop them.

TOYA

Has Chief parker been notified?

Surveillance footage shows Chief Parker plodding along slowly, whilst a snail moves faster than him on the side of the road.

RED ROVER

He will never get there in time.

D.A.D

In that case, you're going to need to work together to stop them from stealing those toys.

NITRO

No problem.

TOYA

Dad, send over location co-ordinates.

D.A.D

Sending over now.

NITRO

Okay team. Let's go!

D.A.D'S Led screen rises up like a garage door, creating an opening to the outside world. The Supercar crew fly through the opening.

EXT. CREW HQ - DAY

First up Nitro races through the air.

NITRO

Nitro!

Next out of the opening is Phoenix Flyer. The back end of the truck turns into two wings, it's wheels turn in as Phoenix flyer rises to the air.

PHOENIX FLYER  
Phoenix Flyer!

Phoenix flyer catches up to Nitro.

PHOENIX FLYER (CONT'D)  
Fastest on land verses fastest in  
the air?

NITRO  
First one to the Super villain crew  
wins.

PHOENIX FLYER  
On your marks.

NITRO  
Get set.

BOTH  
Go!

Phoenix Flyer and Nitro begin racing to find out who's the fastest.

EXT. ROAD - DAY

Whilst racing they pass Chief Parker so fast causing his police car to do a 360 spin.

CHIEF PARKER  
What in the billy bobbies!

Chief Parker looks around confused.

EXT. CREW HQ - DAY

Next out the opening is Lectro. His car surrounded by electricity similar to the Flash.

LECTRO  
Go Go Go Lectrooooo!

With his electrical charge, Lectro speeds down the road. Out next is Toya. Her dashboard turns into a smart super computer.

TOYA  
Toya!

The final car out of the opening is Red rover. He leaps through the air and comes crashing down through a rock.

RED ROVER  
Red rover smash!

Red rover hits the rock with such force, it smashes it into tiny pieces. He begins tearing down the road letting out an almighty roar.

RED ROVER (CONT'D)  
Roarrrrrrrrr!

EXT. ROAD - DAY

Lawrence the Lorry pleads with the super villain crew.

LAWRENCE  
Please, these toys are for the children at the hospital.

HAMMER HAWK  
And now they belong to the Super villain crew. So hand them over!

LAWRENCE  
Never!

HAMMER HAWK  
Well, in that case.. Steel spider.

Steel spider leaps onto the back of the truck and forces the door open. Inside the back of the truck, a big sack of toys.

STEEL SPIDER  
That's a lot of toys.

In the distance Nitro and Phoenix emerge neck and neck.

PHOENIX FLYER  
I guess we should call it a draw!

NITRO  
There they are!

Phoenix Flyer soars up into the clouds doing a loop to loop, he swoops down next to Nitro, as his wings fold in, transforming back into a pick up truck.

HAMMER HAWK  
Grab that sack and let's get out of here.

NITRO (O.S.)  
Hold it right there Super Villain crew.

STEEL SPIDER

And who are you?

Lectro, Toya and Red Rover arrive behind Nitro and Phoenix Flyer.

NITRO

We are here to stop you from stealing those toys.

TOYA

Yeah, those toys don't belong to you.

HAMMER HAWK

Says who?

ALL CARS

We do!

STEEL SPIDER

I've got a little surprise for you. Super car crew.

LECTRO

I love surprises.

Steel spider initiates a giant steel web cage. Trapping the super car crew inside it.

STEEL SPIDER

Steel cage! And oops! I forgot to add a door.

PHOENIX FLYER

Oh no, we're trapped.

RED ROVER

Red rover smash!

Red rover rams into the steel web cage but bounces off it.

NITRO

The steel, it's too strong. There's no way we can smash our way out.

HAMMER HAWK

Great work Steel spider. Now grab the toys and let's get out of here.

LECTRO

There must be a way out of this cage?

TOYA

According to my super computer,  
steel can melt at a temperature  
between 2500 to 2800 Fahrenheit.  
The only way out of here is to melt  
the steel.

Lectro moves forward.

LECTRO

It's okay team. I've got this.

They move back as Lectro begins revving.

PHOENIX FLYER

Be careful Lectro.

LECTRO

Go Go Lectrooooooooooooo!

Lectro begins generating electricity, a huge current begins forming around him, he drives into the cage, passing the electricity onto the steel bars, causing them to melt, giving the crew an opening to escape.

PHOENIX FLYER

Wait a go Lectro.

RED ROVER

Red rover smash!

This time Red rover hits the melted steel and smashes right through it, causing it to disintegrate to the ground.

HAMMER HAWK

No! That's impossible.

STEEL SPIDER

No one escapes the steel cage.

Steel Spider grabs the sack of toys.

TOYA

Steel spider, he's got the toys.

STEEL SPIDER

Let's get out of here.

Hammer hawk races alongside Steel spider.

NITRO

Quick, after them.

Steel spider activates running mode. His steel legs crash into the ground as he tries making a get away with the sack of toys.

NITRO (CONT'D)

Initiate super speed.

Nitro wheel spins as a cloud of smoke is created around his tyres. He speeds off in pursuit of the super villain crew.

LECTRO

I'll create a road block.

Using his super electric charge, Lectro takes out a street sign, it falls to the ground. Narrowly missing the super villain crew.

STEEL SPIDER

Ha, you missed!

Red rover bashes into Steel spider, the sack of toys fly high up into the air as Steel spider rolls down the road, before stabilizing himself. The sack of toys fly over the bridge and begin free falling to the water below.

TOYA

The toys.

RED ROVER

We can't let them fall into the water, they will be ruined.

LECTRO

And the children at the hospital wont get any toys.

HAMMER HAWK

In that case, I'll make sure they fall into the water.

Hammer hawk spreads it's wings. He flies down toward the falling sack of toys.

HAMMER HAWK (CONT'D)

Into the water they go.

Suddenly Phoenix flyer scoops up the sack just as the sack's about to hit the water.

PHOENIX FLYER

Not today!

Phoenix flyer glides through the air with the sack of toys.

NITRO

Wait a go Phoenix flyer.

STEEL SPIDER

Nooo! How dare you ruin our plan.

NITRO

Some plan. Stealing toys from children.

TOYA

Yeah, that's not very nice!

HAMMER HAWK

We will get away with it next time.

RED ROVER

There isn't going to be a next time.

STEEL SPIDER

That's what you think? Say hello to my latest invention... Fire tyre!

A motorbike with flaming wheels, FIRE TYRE, emerges. Fire tyre does several donuts, his flaming wheels create a fire, enough for the super car crew to escape.

LECTRO

They're getting away.

TOYA

Release monoammonium phosphate.

The front of Toya's car turns into a fire extinguisher. Allowing her to put out the fire.

PHOENIX FLYER

They got away.

NITRO

At least we were able to stop them from stealing the toys.

TOYA

You're right. Now let's get these toys back to Lawrence, so he can get them to the children's hospital.

They drive off, whilst Phoenix flyer flies next to them with the sack of toys. As they fade into the distance, Chief Parker arrives on the scene.

CHIEF PARKER  
Hello? Anybody?

Chief Parker plods along.

CHIEF PARKER (CONT'D)  
I had a report of some stolen toys.  
Although with my hearing it could  
have been Cowboys or alloys.

Chief Parker looks on confused.

CHIEF PARKER (CONT'D)  
Oh, I don't know.

INT. SECRET VILLAIN SCRAP YARD - DAY

Hammer Hawk, Fire Tyre and Steel spider gather in their  
secret scrap yard.

HAMMER HAWK  
The super car crew will pay for  
this.

FIRE TYRE  
They out numbered us!

STEEL SPIDER  
Maybe it's time I create an army of  
super villains.

ALL  
Muahahaha!

EXT. HOSPITAL - DAY

Lawrence the lorry is parked outside the hospital as Gary  
interviews him for his podcast, whilst Nitro, Toya, Lectro,  
Phoenix flyer and Red rover all look on.

LAWRENCE  
And thanks to this team right here,  
I was able to get the toys to the  
children's hospital.

GARY  
Wow! Such an incredible story.

NITRO  
Well, we better go now.

GARY

Wait! Before you go. You can't just call yourselves team. That's boring, we need to give you a name.

PHOENIX FLYER

A name?

GARY

Yeah a cool name?

ALL CARS

Oh, umm..

GARY

I got it. The Super car crew!

The cars all mumble to each other.

ALL CARS

(mumbling)

It's got a good ring to it. Think of the merchandising rights.

NITRO

Anytime a vehicle is in need. You can call...

ALL CARS

The super car crew!

They exit the hospital in celebration as Gary and Lawrence look on with a big smile. They begin making their way back to their original destinations. We see each car pull up.

EXT. CONSTRUCTION SITE - DAY

Phoenix Flyer arrives back at the construction site unnoticed. We turn our attention to Dave, who is singing whilst mixing cement.

DAVE

You spin me right round baby. Right round, like a cement mixer...

EXT. CAR PARK - DAY

Next to arrive is Lectro. Who pulls into the special charging bay. And takes a well earned rest.

EXT. SALON - DAY

Toya arrives in the salon car park.

LILAC CAR  
Hey, did you get your new treads?

TOYA  
You know it's funny, they didn't  
have my size.

EXT. FARM - DAY

Red Rover arrives onto the farm. He heads towards the barn  
and spots Steven the sheep on the roof.

RED ROVER  
There you are!

SHEEP  
Baaaaaaa!

INT. UNDERGROUND CAR PARK - DAY

Nitro enters the car park with super speed, he parks up next  
to the white car, who is still playing eye spy.

WHITE CAR  
Something beginning with P? Erm...  
Piano?

NITRO  
Nope. It was Pillar.

WHITE CAR  
Oh.

GARY(V.O.)  
Join us next time for more  
adventures from the super car crew.
